Use this section to provide any additional information requested by HUD.

The following information is an excerpt from the Sylacauga Housing Authority Admissions and Continued Occupancy Policy (adopted July 29, 1999) pages 43 and 44.

SECTION XXVI. DECONCENTRATION RULE SECTION XXVI. DECONCENTRATION RULE

1. **Objective:** Objective The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median

income. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

2. Actions:. Actions To accomplish the deconcentration goals, the housing authority will take the following actions:
- A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.
 - B. To accomplish the goals of:
 - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
 - (2) Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The Sylacauga Housing Authority plans to utilize existing program elements to target high-risk youth and families. This approach will include community policing and law enforcement, education, drug prevention and youth sports programs. Working with a coalition of local agencies and organizations including the Sylacauga Police Department; The Sylacauga Parks and Recreation Department; and Sylacauga City Schools, the Housing Authority anticipates positive results through a team effort to eliminate and prevent the sale and use of illegal drugs in the City’s public housing communities. The Sylacauga Housing Authority’s comprehensive drug elimination and prevention programs includes the following components:

1. Contracting with the Sylacauga Police Department to provide additional law enforcement services in the City’s public housing areas based on a community-policing concept of combination vehicle and foot patrols. Based at the Northeast Precinct in Drew Court, SPD Officers dedicated to public housing detail also maintain an active police substation within the most problematic neighborhood.
2. Strategic drug prevention programs such as tutorial programs, Summer remedial program and computer classes to assist residents of all ages in developing academic and job skills and building self-esteem through educational and social development opportunities. Use of a full-time drug education coordinator is essential to successful program implementation.

3. Use of tried and tested programs such as Neighborhood Watch and the D.A.R.E. Program, which tend to unify people - both young and old create a spirit of cooperation within the community. These programs complement an on going Citywide project called "Night Eyes".
4. Youth sports and cultural activities such as organized sports team participation and Boy Scouts and Cub Scouts to offer high-risk youth an acceptable alternative to illegal drugs.

These programs represent a cohesive partnership between the Sylacauga Housing Authority, residents, the City of Sylacauga and many local organizations and agencies to ensure the most extensive drug prevention strategies possible are employed to serve the residents living in Sylacauga's four public housing communities. Through these efforts it is anticipated residents will feel secure enough in their neighborhoods to play an active role in maintaining a safe, wholesome and drug free community environment. Evaluation will be addressed via a resident survey by an independent contractor and through the use of the SHA Drug Elimination Advisory Committee consisting of resident representatives, municipal representative, law enforcement and Housing Authority staff.
