Attachment C -

The Commonwealth of Pennsylvania's strategy for community development and housing is proposed to consist of the following elements:

- **Provide Housing for Low Income Households.** This goal, serving households up to 50 percent of median family income, is consistent with the current Consolidated Plan which incorporates provisions to include projects that:
 - promote diversity of race ethnicity, income level and/or disability status within a community.
 - or
 - are integral to a comprehensive community development strategy that addresses other community needs such as transportation, employment, and infrastructure.
- **Leverage Non-Traditional Resources for Community Development and Housing.** In an era of fiscal restraint, projects that identify and use creative funding sources should be encouraged and promoted.
- **Build the Capacity of Community-Based Organizations and Local Governments.** Providing training and technical assistance for community-based organizations is very haphazard, but critical to the completion and ongoing success of both housing and community development programs.
- **Apply Technology Improvements to the Construction and Rehabilitation of Housing.** The housing industry has many new technologies that can both improve the long-term affordability of housing or can prepare communities and its residents to participate in the new economy of the 21st Century.
- **Promote Economic Opportunities.** The real problems of housing and community development can often be traced back to lack of income or lack of economic opportunities at both the household and community levels. Using community development and housing resources to promote economic opportunities can help make significant gains in overcoming the problems of poverty and disadvantaged areas.
