In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

The Housing Choice Voucher Program has reached 95% utilization, however, with turn over each month and the impact just one person has on the utilization percentage, there is no waiting list for the program. As individuals submit applications each month, orientation is held and the number that begin participation normally equal those leaving the program. It is anticipated a waitlist will be implemented soon to maintain a 75% rate of Extremely Low Income participants.

There is a lack of rental housing stock that meets Housing Quality Standards. The number of new landlords to the program has increased 25%. The housing authority continues marketing to landlords not participating in the program, review payment standards to enable lease-up and maintains a housing database to ensure access to affordable housing in non-concentrated poverty areas. The Monroe County Apartment Association, a chapter of the Wisconsin Apartment Association has recently been formed. Membership development and assistance is provided by the housing authority. These strategies were selected because of small staff and funding.
