[24 CFR Part 903.7 9 (r)]

Troubled Agency Plan

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Hartford Housing Authority was designated a "High Performer" based on its U.S. Department of Housing and Urban Development (HUD) Public Housing Management Assessment Program (PHMAP) scores for 1998. That designation, in part, was due to the advanced status of physical redevelopment and tenant initiatives currently under way within the Authority thanks to earlier plans that were made and implemented. (Please note: because of the High Performer designation, there are some parts of the following plan which are not required).

Therefore, the Authority was pleased to engage in QHWRA planning as required by HUD. The Authority considers it a continuation of a process that has been used locally and which is deemed essential and urgent for the transformation of public housing into a program which will advance families and communities in the 21st. Century.

Many of the changes reflected in the QHWRA Plans and Attachments are responses to congressional mandates. Other changes which are being proposed as local options are designed to encourage families in their own search for self – sufficiency. The plans also indicate the informal linkage between the State's Welfare Department (DSS) and the benefits that accrue to families while living in public housing.

The Hartford Housing Authority considers the planning process under QHWRA as a continuation of an on-going and successful effort to identify needs in the community and to respond effectively to those needs. The Authority has worked closely with the City of Hartford and its several departments in designing previous plans and actually garnering the resources to

implement those earlier plans. The Authority will continue to work closely with the City well over 100 partners to refine these plans and to implement the plans as they are approved.
