DECONCENTRATION POLICY

SELECTIONFROMTHEWAITINGLIST

The Charleston County Housing Authority shall follow the statutory requirement that least 40% of newly admitted families in any fiscal year befamilies who sean nual income is a torbelow 30% of the area median income. To insure this requirement is met, we shall quarterly monitor the incomes of newly admitted families as well as of families on the waiting list. If it appears that the requirement to house extremely low -income families will not be met, we will skip higher income families on the waiting list to reach extremely low -income families.

If there are note nough extremely low -income families on the waiting list, we will conduct out reach on an on -discriminatory basis to attract extremely low -income families in order to reach the statutory requirement.

DECONCENTRATION POLICY

ItistheCharlestonCountyHousingAuthority'spolicytoprovi defordeconcentrationof povertyandencourageincomemixingbybringinghigherincomefamiliesintolower incomedevelopmentsandlowerincomefamiliesintohigherincomedevelopments.

Towardthisend, we will skip overfamilies on the waiting list to each other families with a lower or higher income. We will accomplish this in a uniform and non discriminating manner.

The Charleston County Housing Authority will affirmatively market our housing to all eligible income groups. Lowerincome residents will not besteered toward lowerincome developments and higher income people will not be steered toward higher income developments.

Priortothebeginningofeachfiscalyear, we will analyze the income levels of families residing in each of our developments , the income levels of censustracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.
