The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

9. Deconcentration Plan

The objective of the Deconcentration Policy for **public housing** units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the Housing Authority is to house no less than 40% of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also, the Housing Authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the housing authority does not concentrate families with higher income levels, it is the goal of the Housing Authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The Housing Authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the Housing Authority's computer system.

To accomplish the deconcentration goals, the housing authority will take the following actions:

1. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of the total number of move-ins from the previous housing authority fiscal year.
2. To accomplish the goals of housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and not housing families with incomes at or below 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is part of this policy, provides for skipping families on the waiting list to accomplish these goals.
