## 5-YEAR PLAN PHA FISCAL YEARS 2000 - 2004

[24 CFR Part 903.5]

### A. Mission

e PHA's mission for serving the needs of low-income, very low income, and extremely low-income in the PHA's jurisdiction. (select one of the choices below)
The mission of the PHA is the same as that of the Department of Housing and Urban Development: To promote adequate and affordable housing, economic opportunity and a suitable living environment free from discrimination.
The PHA's mission is: (state mission here)

In adopting this mission statement, the board envisioned that there were many means by which the Authority could provide housing assistance from development and ownership of housing to the provider of housing subsidies. Further, it is understood that these mechanisms would change over time (primarily as market forces change). It should be noted that this mission is consistent with the QHWRA, which also envisions a broad and changing landscape for public housing.

This mission also makes clear that the Agency has a rod that extends beyond simply housing assistance. The housing provided must support families, neighborhoods, and economic self-sufficiency. Among other matters, this means that the Agency should not provide housing that concentrates poverty or fosters dependence. At the same time, however, the PHA must use prudent use of the public dollars and every "unit" of housing provided must be at a cost that is reasonable, balancing the Agency's monetary goals with the non-monetary goals. Further, the PHA will promote a suitable living environment without discrimination. The PHA will recognize residents as its ultimate customer, and improve its management and service delivery efforts through effective and efficient management of the Housing Authority staff, seek problem solving partnership with residents, community and government leadership.

### **B.** Goals

The goals and objectives listed below are derived from HUD's strategic Goals and Objectives and those emphasized in recent legislation. PHAs may select any of these goals and objectives as their own, or identify other goals and/or objectives. Whether selecting the HUD-suggested objectives or their own, PHAS ARE STRONGLY ENCOURAGED TO IDENTIFY QUANTIFIABLE MEASURES OF SUCCESS IN REACHING THEIR OBJECTIVES OVER THE COURSE OF THE 5 YEARS. (Quantifiable measures would include targets such as: numbers of families served or PHAS scores achieved.) PHAs should identify these measures in the spaces to the right of or below the stated objectives.

#### A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

1. <u>Objective</u>: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less

than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

2. Exemptions. The following are exempt from this rule.

Public housing development with fewer than 100 public housing units. A covered development is defined as any single development or contiguous developments that total over 100 units.

Public housing developments which house only elderly persons or persons with disabilities, or both.

Public housing developments approved for demolition or conversion to tenant-based assistance.

Mixed financing developments.

- 3. <u>Actions</u>: To accomplish the deconcentration goals, the housing authority will take the following actions:
  - A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of moveins from the previous housing authority fiscal year.
  - B. To accomplish the goals of:
    - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
    - (2) The HA shall determine the average income of all families residing in all the HA's covered developments. The HA shall determine the average income of all families residing in each covered development. In determining average income for each development, this HA has adjusted its income analysis for unit size in accordance with procedures prescribed by HUD. The HA shall determine whether each of its covered developments falls above, within or below the Established Income Range. The Established Income Range is 85 percent to 115 percent (inclusive of 85 percent and 115 percent) of the HA-wide average income for covered developments.

Fair housing requirements. All admission and occupancy policies for public housing programs must comply with Fair Housing Act requirements and with regulations to

affirmatively further fair housing. The HA may not impose any specific income or racial quotas for any development or developments.					
a.  Yes No: Does the PHA have any general occupancy (family) public housing developments covered by the deconcentration rule? If no, this section is complete. If yes, continue to the next question.					
	b. Yes No: Do any of these covered developments have average incomes above or below 85% to 115% of the average incomes of all such developments? If no, this section is complete  If yes, list these developments as follows:

#### D. Other Information Required by HUD

#### RESIDENT ASSESSMENT SYSTEM SURVEY (RASS)

The PHA continues to work with new resident councils to determine exactly what their concerns are with the neighborhood appearance. We have determined that the complexes receiving the lowest scores in the area of neighborhood appearance are more than 10 years old and haven't received substantial rehabilitation in the past 10 years. Further we feel that the common areas are of concern to the residents and its appearance (good or bad) is a result of the residence. For many years, we have employed grounds maintenance personnel to pick up litter from the complex grounds on a daily basis. In addition our maintenance department maintains the lawns and shrubs.

The one complex to score lowest has received the most attention to its physical appearance. It is a part of the historic trail, has brick side-walks and wrought iron fencing surrounding the complex. It surrounds one of Selma's most historic Churches and makes a very impressive sight. The complex is located in a poverty-stricken area but it is a very well kept complex.

In our Five Year Action Plan we have planned the following activities:

Continue installation of new windows Replace exterior drainage

#### STATEMENT OF PROGRESS IN MEETING FIVE YEAR PLAN MISION AND GOALS

As a part of meeting our Five Year Plan Mission and Goals, the PHA has closed on the sale of one unit in the 5-H Conversion of Wilkinson Homes and continues to work with residents interested in purchasing.

The PHA's SEMAP and PHAS scores were improved and the PHA has once again been designated a High Performing Authority for 2002. We have started construction on 22 units for the mentally challenged attempting to expand the supply of assisted housing.

The PHA continues to make efforts to increase Caucasian participation in housing programs.

As a part of promoting self-sufficiency, the housing authority applied for ROSS Grants to establish Comprehensive Self Sufficiency Programs in Public Housing.

#### PROJECT BASED VOUCHERS

The PHA has complied with HUD's instructions to issue letters of intent to agencies seeking tax credit funding to construct housing developments in accordance with Alabama Housing Finance Authority. Some units are targeted for people with mental disabilities. We've received two requests after properly advertising in The Selma Times Journal to set aside project based vouchers for the mentally challenged. The requests were for a period of 15 years and received from Magnolia Garden Apartments for eight one-bedroom units and Hill Top Development requested four one-bedroom and ten two-bedroom units. These units are currently under construction.

The units are being constructed in the area of Medical Center Parkway and Marie Foster Street.

Project basing the assistance is an attempt to guarantee the availability of housing for mentally challenged individuals.
