As of this date all the above developments have been funded and are in various stages of construction. Parkview and Rembrandt Apartments will be funded in future year's capital improvement budgets. Except for the elderly sites (JL Young and Mary Bethune), as these modernized properties come back on line, they will be re-tenanted from respective site based waiting lists. As of this date, Seminole, Bay Ceia, Squire Villa, Plantation (now known as SoHo Place), Azzarelli and Azeele have been re-occupied. St.Louis and C.Blythe Andrews are back on line and are undergoing re-occupancy.

The Housing Authority has completed a comprehensive assessment of its Maintenance Department operation in an effort to improve its overall services to residents. The assessment project identified certain deficiencies within the department and has proposed a revised service delivery system that will enable the department to better maintain the recently renovated scattered site communities and to provide quality services for the other public housing communities. The new maintenance operation plan will be implemented during the remaining months of FY2002 and further assessed for any additional modifications during FY2003.

Goal 2: Maintain and expand the affordable housing stock by adding 150 units by fiscal year 2008.

Progress: The Authority has formed an affordable housing development and acquisition committee that will work to identify development and acquisition opportunities to increase our supply of affordable housing to serve the need in the City of Tampa. Additionally the Authority has progressed with its Belmont Heights HOPE VI project which will result in the addition of over 800 units of mixed-income housing (559 units will be completed by the end of 2003). The Authority is also pursuing additional property acquisition opportunities in conjunction with our proposed redevelopment of the Riverview Terrace and Tom Dyer communities. The THA has completed the sale of 94

obsolete and dilapidated units in North Boulevard Homes to Florida DOT. The deal netted in excess of \$2.3 million to add 94 replacement units to our inventory. Additionally THA has completed the acquisition and renovation of a 73 bed assisted living facility, Palm Terrace which is now occupied. THA is also progressing development of the Gardens at South Bay which will include 216 units as part of a land transfer between the School Board of Hillsborough County and THA to replace Rembrandt Apartments.

Goal 3: **Increase homeownership opportunities for lower/moderate income families by providing 250 additional home ownership units by fiscal year 2008.**

Progress: The Authority has progressed with its Delaney Creek Homeownership program which has offered an additional 66 units of affordable homeownership units to the local market. The Authority has sold all 66 single family homes. The Authority has plans to develop 36 single family for sale units in the Belmont Heights development and if funded, 94 single family for sale units in the Riverview Terrace HOPE VI development. The Authority is additionally working with local authorities to develop/acquire additional units on the market for sale to income eligible persons.

The Authority is working with local agencies to develop/acquire additional units on the market for sale to income eligible persons. As part of this focus, the Authority has combined all of its homeownership efforts into one department, the Center for Affordable Homeownership, which will provide comprehensive homeownership education and the rehabilitation and development of infill housing. The goal is to empower potential homeowners through education of the pre-purchase, mortgage, home maintenance, post-purchase and foreclosure prevention processes. Additionally, this department will work with City, County and other local non-profits in partnership to increase the inventory of affordable, single-family homeownership opportunities in Tampa.

Goal 4: **Maintain an exceptionally efficient and effective Housing Choice Voucher (Section 8) program that maximizes available resources to provide quality and affordable housing assistance.**

Progress: The Authority has successfully increased its pool of participating landlords in excess of our stated goal of 5%. The Section 8 program has provided in excess of 125 additional housing opportunities outside areas of traditional assisted housing concentration. Additionally the Section 8 program has continued to maximize financial resources by reducing administrative costs. The Section 8 Homeownership Voucher Program will further increase affordable housing for our families through homeownership. The Authority is working in conjunction with Fannie Mae, LISC and the local lending community to develop a mortgage product to service this innovative program.

Goal 5: **Accomplish all elements of the approved HOPE VI grants for Ponce De Leon and College Hill Homes and Riverview Terrace and Tom Dyer Homes in accordance with their approved HOPE VI Implementation schedule.**

Progress: Demolition of buildings and site utilities was completed in June 2001. The Authority and development team completed a financial closing on the first phase of the Belmont Heights HOPE VI project in June 2001 and construction of 201 units and related site utilities is complete. Financial closing also occurred on a second phase and construction of 358 units is anticipated to be complete in November 2003. The development team received a tax credit award for the third and final phase in October 2003 with construction anticipated to start in mid 2004. The Authority continues to provide ongoing supportive services to the relocated residents of this HOPE VI development.

The Authority is also progressing the Riverview Terrace/Tom Dyer Homes HOPE VI project (grant awarded November, 2001). The Relocation Plan was approved in July 2002 and relocation is in progress. The Revitalization Plan has been approved by HUD. Environmental clearance has been obtained. The Developer contract was executed in June 2003 and the development team has received approval of bond financing from the Hillsborough County Housing Finance Authority. Disposition and CSS Work Plan approvals are in place. Evidentiary documents are undergoing HUD review prior to financial closing.

Goal 6: Recruit and retain high quality professional staff and provide continued opportunities for enhancement and advancement.

Progress: The Authority is in the process of developing work plans that will guide and track the progress under this goal. The Authority understands the importance of staffing the organization with quality professionals to implement the programmatic direction of the agency. Further, retaining a progressive staff to move the agency forward will require competitive salaries, and educational and training opportunities that are competitive in the local market..

Goal 7: Enhance and Secure Financial Stability and Develop New Financial Opportunities.

Progress: The Authority is in the process of developing work plans that will guide and track the progress under this goal. Diversifying the housing portfolio and income producing real estate holdings of the agency will enhance its long term financial stability. The Authority has taken the first step in identifying the need for asset management to determine/manage the highest and best use of our portfolio.

Goal 8: To create and enhance social and economic opportunities, academic skills, and self-sufficiency activities to improve the quality of life for all residents by promoting essential community and supportive services.

Progress: The Authority is in the process of developing work plans that will guide and track the progress under this goal. The Authority has recently updated its admissions and continued occupancy plan (ACOP) to include recent changes in the regulations governing public housing. THA is providing on-going capacity building to the resident organizations and continue to operate and enhance self-sufficiency programs.

Goal 9: To create, maintain, and promote a safe and secure environment for residents and employees.

Progress: *The Authority is in the process of developing work plans that will guide and track the progress under this goal. A “Safety First” campaign is being implemented to broaden awareness of the importance of safety in the workplace. Modernization projects reflect an ongoing commitment to a safer, healthier living environment for residents.*

Goal 10: To create a positive image for the Tampa Housing Authority and increase community involvement and awareness of THA activities at all levels.

Progress: *The Authority is undergoing a strategic business plan development process which will provide work plans to implement initiatives under this goal.*

**Description of Implementation
Of
Community Service Requirements**

Community Service & Work Responsibility

The Quality Housing and Work Responsibility Act (QHWRA) of 1998 requires that all non-exempt adult public housing residents (18 years of age and older) contribute 8 hours per month of community service or participate in 8 hours per month of self sufficiency related activities (or a combination thereof). Adult residents are exempt from these requirements if the resident:

- is 62 years of age or older
- has a disability that prevents gainful employment
- is the caretaker of a disabled person
- is working at least 20 hours per week
- is participating in a welfare to work program
- is enrolled in an education/training program or curriculum
- is receiving TANF assistance and is in compliance with job training and work activities of this program.

The first step in implementing this QHWRA requirement was an intensive educational effort to advise public housing residents of the new requirements and the time frame for implementing them. The Housing Authority's Operations and Resident Services Departments held a series of meetings with all public housing residents on site at their developments, and a public hearing for residents to question, comment on and discuss all of the new implementation details of the lease mandated by HUD under QHWRA, including the Community Service and Work Responsibility Requirements. In addition to the number of meetings held on-site for the residents, flyers were distributed ninety (90) days prior to the beginning of the housing authority's fiscal year (04-01-01) to start the process of answering additional questions, assist in making referrals and to count the number of "exempt" residents from the CSR requirements. Since April 2001, the Resident Services staff has disseminated information monthly to residents and responded to questions of the residents, property managers, agencies, volunteer programs, etc., regarding CS/WR requirements under QHWRA.

The informational handouts include: 1) an Exemption Certification form to be filed with the property manager for residents claiming an exemption from the requirements, and 2) a Record and Certification of Community Service form to document hours of self-sufficiency/community service participation of non-exempt residents. Flyers will continue to be distributed through 12-31-01. Thirty days prior to lease renewal, the property manager will determine compliance with the Community Service/Work Responsibility requirements and lease renewal denied for non-compliance.

Community Service and Self-Sufficiency requirements have been incorporated into THA's Admissions and Continued Occupancy Policy (Section 8.C.) and THA Lease documents. At lease execution or re-examination all adult members of a public housing resident families must provide documentation of exemption and sign a certification that they have received and read the requirements and, if not exempt, that failure to comply will result in non-renewal of their lease.

At each annual re-examination, non-exempt family members must present a completed form documenting activities performed during the previous 12 month period. The form includes places for signatures of supervisors, instructors or counselors certifying the number of hours completed. If a family member is found to be non-compliant at re-examination, the family member and respective head of household must sign an agreement to make up the deficient hours over the next 12 month period. If , at the time of subsequent annual re-examination and/or lease expiration, the resident is still non-compliant, the lease will not be renewed and the entire family will have to vacate, unless the non-compliant member agrees to move out of the unit. The family may use the Authority's Grievance Procedure to protest lease termination.

It is the responsibility of residents to inform the Authority if their exempt/non-exempt status changes during the 12 month lease period.

To the greatest extent possible and practical, the Authority will provide the names of agencies and applicable contact persons that can provide opportunities for residents to comply with these requirements.

Resident Membership On Governing Board

Florida Statute governs the creation of public housing authorities in the State of Florida. A seven-member board of commission governs the Housing Authority of the City of Tampa. One of the seven board positions must be a resident. The current resident board member is Ms. Karen Peoples, resident president and public housing resident residing at C. Blythe Andrews apartments.

Excerpts from the statue which can be found in article 421 of the State of Florida Statue that support resident membership on the Authority's governing board of commissioners are as follows:

§421.05 Appointment, Qualifications, and Tenure of Commissioners;

. . . Each housing authority created pursuant to this chapter shall have at least one commissioner who shall be a resident who is current in rent in a housing project or a person of low or very low income who resides within the housing authority's jurisdiction and is receiving rent subsidy through a program administered by the authority of public housing agency that has jurisdiction for the same locality served by the housing authority, which commissioner shall be appointed at the time a vacancy exists.

Definition of Substantial Deviation and Significant Amendment

1. Definition of “Substantial Deviation” and “Significant Amendment or Modification” [24 CFR Part 903.7(r)]

PHAs must define the terms “Substantial Deviation” and Significant Amendment or Modification” by stating the basic criteria for such definitions in an annual plan that has met full public process and RAB review (Final Rule 903.7(r)(2). Until the PHA has met the requirements to define “significant amendment or modification”, HUD will consider the following actions to be significant amendments or modifications:

- ☒ Non-statutory changes to the admissions preference system or organization of the waiting list;
- ☒ Additions of non-emergency work items **over a cumulative cost of \$100,000 for the current fiscal year** (items not included in the current Annual Statement or 5-Year Action Plan) or change in use of replacement reserve funds under the Capital Fund;

Section 8 PHA Project Based Vouchers Statement

It is the goal of the Housing Authority of the City of Tampa to project-base up to 20 percent of its tenant based vouchers. In keeping with the goal of de-concentration, preference will be offered to those owners that have units in areas of low poverty. One of our initial efforts will be to advertise for housing designated for seniors. The Housing Authority reserves the right to advertise for multi-family sites that cater to families and/or mixed use.

HUD has approved the use of project based vouchers at Palm Terrace, the assisted living facility recently acquired by the Housing Authority and for 45 units in conjunction with development of the Oaks at Riverview HOPE VI project.

ATTACHMENT L

Section 8 Homeownership Capacity Statement

The Housing Authority of the City of Tampa will initially limit the homeownership program size to a maximum of 100 families at any given time. The maximum program size may be increased at the discretion of the Director of Assisted Housing. Furthermore, Housing Authority policy requires a minimum of three percent down, with one percent being directly from the family. Also, the Housing Authority is developing a Homeownership Center that will anchor all THA homeownership efforts, especially as relating to education and training. The Center opened during 2003.

Security Plan

We intend to preserve the peace and use vigorous law enforcement along with residents, to help combat drugs and crimes that presently exist in our public housing communities. We will place special emphasis on loitering and open-air drug sales.

The Tampa Housing Authority (THA) is committed to providing an environment that will be safe for the resident to live in. We will try to eradicate drugs and crime from our public housing communities. THA recognizes that there are situations where law enforcement is capable and duly authorized to conduct investigations, especially as it relates to targeting narcotic enforcement and habitual offenders. Consequently, THA seeks to augment baseline services provided by local law enforcement pertaining to narcotic enforcement activities on THA premises. Persons living in public housing who engage in drug or criminal activities will face certain and swift eviction. Public housing is to be a safe place to live, not to commit crimes.

Resident Patrols

An effective Resident Patrol Program will produce benefits to all THA properties and with the dual support of the police department and a Resident Patrol Program it can work to identify and solve community crime, drugs and disorder problems within THA communities.

Reclaiming the Community

Criminals, drug traffickers, and other law violators often look upon public housing communities as a safe haven. They recognize that public housing residents have historically been reluctant to exert control over the communities they live in. Consequently, it becomes a place to buy and sell drugs, intimidate residents, engage in disorderly behavior, settle arguments, and hide from the police.

Resident Patrols serve to reclaim the neighborhood and promote a safe place to live and raise their children. It sends a clear message to drug dealers and others who prey on the neighborhood that their behavior will no longer be tolerated and that any illegal or suspicious activities will be reported to the police or other appropriate authorities.

Community Order

The most prevalent problems in many neighborhoods is the lack of community order. Typically, community disorder includes but is not limited to trash on the streets, in yards, graffiti, fights, public drinking, open drug use, loud music, noise, large gatherings of boisterous young adults, unsupervised children, or family quarrels. These conditions often occur because residents and visitors recognize that neighbors will tolerate behavior and the offenders feel safe that they will not be held accountable for their actions.

An active resident patrol program will send a signal to those creating disorder that community members care and this type of behavior will not be tolerated and if their actions continue they will be reported to the police. Most individuals will refrain from engaging in illegal or anti-social acts if residents view them critically or will report them to the authorities.

Resident Control

The establishment of resident patrols serves as an ideal mechanism for assisting residents in gaining control of their neighborhood. It is a more expedient to exert control through a group than individually. Even though public housing neighborhoods have Resident Councils, these organizations address a variety of issues they may not focus specifically on crime, drugs, and disorder. That is why resident patrols that address crime and crime related problems are so effective in helping residents to gain control of their communities.

Enhanced Reporting

Increased reporting sends a clear signal that the program is working and that residents have less tolerance for crime and disorder in their neighborhood. It is anticipated that with resident patrols and the renewed interest among residents to reclaim their neighborhood that illegal, suspicious activities should decrease sharply.

Increasing Violators' Risk Perception

Another benefit of resident patrols is the increased perception by criminals, drug traffickers and users as well as other undesirables that they will be detected and reported if they engage in criminal or anti-social behavior. Over the course of time, these individuals will either change their behavior or find another location to serve as their "safe haven".

Preventing and Suppressing Crime

The prevention of crime and disorder is the primary purpose of resident patrols. They serve as an organized way to reduce the criminal's opportunity. As residents patrol a neighborhood observing illegal or suspicious activities would-be violators will be reluctant to engage in illegal or unacceptable behavior because they fear the risk of detection.

The training the patrols receive and their increased inner action with the police department will constitute a better understanding and awareness of crime and what can be done to prevent it. Members of the patrols will influence residents in the neighborhood to be alert to crime awareness and take steps to prevent it.

Residents who become members of the patrol will see their community far differently than they did before. They will recognize problem areas and environmental situations that may contribute to the problems. These may include lighting, overgrown shrubs, trees, unprotected play areas for children and other design conflicts that contribute to situations that are unacceptable or unsafe within the community.

After viewing their neighborhood in a critical way, the resident patrols will be in a position to make safety and security recommendations to THA, police and other City agencies.

**Response to Customer Service and
Satisfaction Survey Results**

In response to the results from the HUD Resident Customer Service and Satisfaction Survey, the following plan has been developed and is under implementation:

Maintenance and Repair:

Question # 5a – Based on your experience, how satisfied are you with how easy it was to request repairs?

The Housing Authority has organized a Work Order Center that will receive all resident service requests. The Work Order Center staff is responsible for taking the resident service requests, inputting them into the computerized work order system, transmitting the hardcopy of work orders to the Maintenance Department, monitoring the completion time of the work orders and closing out each work order within the computer system. The staff will also act as an advocate for the resident by monitoring and ensuring that all service requests are completed within these guidelines: emergency work orders – within 24 hours, urgent work orders – within 48 hours and non-emergency work orders – within 3 days.

Question #5b-How well the repairs were done?

The Housing Authority has implemented a quality assurance review process to monitor how well and effective its maintenance services are being performed. The Maintenance Supervisors, Property Managers and Quality Assurance operation are required to conduct periodic quality assurance reviews and interviews with the residents to assess how they feel about the Housing Authority's maintenance services. Problems are now identified and corrected within a short period.

Communication:

Question #6 – Do you think Management provides you information about maintenance and repair (for example, water shut-off, boiler shutdown, and modernization activities)?

Plan – The Housing Authority will ensure that the maintenance department and property managers adhere to the forty-eight hour notice requirement when conducting inspections or the repair of any system. The affected group of residents shall always receive a prior written notice regarding any system shut-off within their communities. In addition, under the Housing Authority's preventive maintenance plan, the systems at each property will be inspected and repaired by an annual schedule that is established and sent by notice to the residents in advance.

Question #6 – The rules of your lease?

The Housing Authority will implement several steps to assist its residents in becoming better informed about their rights and responsibilities under its lease. These steps shall include the following:

1. **New Lease:** In response to the new federal Housing Act, the Housing Authority recently developed a new lease and received final approval from the Board of Commissioners.
2. **Lease Information Meetings:** The Property Managers will hold a conference with each resident to inform them of the provisions of the new lease and to have them to execute a new lease with the Housing Authority. The Property Managers will also be required to conduct quarterly lease information meetings with a portion of their residents during the next twelve months.
3. **Lease Compliance:** As part of the Property Manager's semi-annual Health, Safety and Sanitation dwelling unit inspections, a portion of the inspection process shall include a review for lease compliance. Each resident will receive a written summary of the noncompliance issues and will be required to attend a lease review conference with the Property Manager.

Question #7 – Do you think Management is responsive to your questions and concerns?

1. **Resident Council Leadership Meetings:** The Housing Authority has organized a monthly Resident Council Leadership meeting for the Resident Council Presidents from each of its developments. Key staff members from each department are required to attend the meetings and to address the concerns and questions from the residents in attendance. These meetings will be continued and expanded to ensure that any concern or resident service need is addressed.
2. **Resident Information Meetings:** The Housing Authority will continue its ongoing Resident Information Meetings that require staff members from the maintenance department, work order center, property management and Public Safety Department to attend. These meetings are held periodically at each development and required the departments to explain their service delivery systems. Any resident concerns or problems are noted and staff provides follow-up.
3. **Customer Service Training:** The Housing Authority has organized a series of staff training sessions revolving around the issue of customer service. Employees from throughout the Housing Authority, especially from maintenance, property management and work order center will receive training on effective and professional techniques when working with the residents and the general public.

Question #8 – Are you involved in a resident/tenant organization in your development?

The Housing Authority takes resident participation seriously. Partnerships have been developed between residents and new duly elected resident council leaders from each development. Elections for new officers were held on October 3, 2001. The newly elected officers are meeting regularly to discuss service delivery systems, resources and information available to residents that inform them and allow the resident council leader to consult adequately with the residents of the Housing Authority developments. The resident council leaders of all properties, in conjunction with Housing Authority staff, continue to encourage resident involvement and participation in resident/tenant organizations.

Safety

Question # 11 – If residents in your development break the rules in the lease, does management take action?

The Housing Authority requires that the property management operation enforce all provisions of its lease. Property Managers are required to maintain log sheets to demonstrate and document that they are enforcing the lease, especially these essential provisions:

1. **Rent Payment:** Property Managers are to maintain monthly eviction logs that list the names of residents who have received 14 day notices for failing to pay their required rent.
2. **One Strike & You're Out:** Property Managers are required to issue 7-day notices to any resident that violates the One-Strike provisions of the lease. Monthly logs are also maintained to track and monitor the 7-Day eviction process.
3. **30 Day Notice:** Property Managers are required to issue 30-day Notices for any other lease violation. These provisions may include failure to complete annual re-examinations, to having illegal boarders, neighbor to neighbor conflicts, failure to cooperate with the Housing Authority's inspection program or not calling in repairs in a timely manner. Monthly log sheet are maintained by the property managers to track and monitor the 30 day notice process.

Services

Question #13 – Over the last year, how many problems, if any, have you had with electricity or heat and how long did it take?

The Housing Authority has established a special maintenance crew to inspect and to identify important repair needs within its public housing communities. The UPCS Sweep teams have been established to address the following issues:

1. **Electrical, Heating and Other Systems:** The UPCS Sweep Teams are scheduled to conduct quarterly inspections and the repair of the plumbing, heating and electrical systems in all of the public housing dwelling units. They are to make sure that all leaks are repaired, electrical switches and outlets are in good working order and light fixtures fully functional. Preventative maintenance has been completed on all heating systems and new heating systems are scheduled to be installed at three of the Housing Authority's public housing communities.
2. **Installation of New Kitchen Appliances:** Under the Housing Authority's Comprehensive Grant Program schedule, each dwelling unit in three of the public housing communities will receive new kitchen ranges and refrigerators. The UPCS Sweep Teams are required to inspect the kitchen appliances and replace any of them that are in poor condition. Any appliance work order is now treated as a urgent need and is completed within forty-eight (48) hours.
3. **Safety Compliance:** The Property Managers and the UPCS Sweep Teams are to conduct a safety compliance review as part of the inspection procedures for each

dwelling unit. To date, fifty percent (50%) of the smoke detectors have been replaced or installed in the Housing Authority's public housing communities. Any smoke detectors found missing or inoperable during the upcoming quarter inspections will be replaced and the resident will be charged a twenty-five dollar (\$25) maintenance fee.

Housing Development Appearance:

Question # 17 – How satisfied are you with the upkeep of the following areas in your development

- **Common areas (for example, stairways, walkways, hallways)**
- **Parking areas**
- **Recreation areas (playgrounds, other outside facilities)**

The Housing Authority has implemented several steps to ensure that the public housing community sites maintain good curb appeal and is in good repair. They include the following:

1. **Private Groundskeeping Contractors:** The Housing Authority has contracted with several private grounds-keeping contractors to pick up old furniture, debris and to mow the grass within its communities. The contractors are required to provide grounds-keeping services, to clean the sidewalks and parking lots daily and to mow the grass twice monthly.

Comprehensive Grant Program Modernization: Eight of the public housing communities are scheduled for modernization construction under the Housing Authority's funded Comprehensive Grant Program. Some of the construction activities shall include repair/painting of the exterior of the buildings, landscaping, cleaning/stripping of parking lots and installation of new playground equipment
