### **Deconcentration Policy**

It shall be the policy of the Waynesboro Redevelopment and Housing Authority (WRHA) to select families for occupancy in its public housing developments in such a manner as to prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the WRHA shall be to occupy no less than 40% of its public housing inventory with families that have incomes at or below 30% of the area median income. The WRHA shall also take appropriate actions to insure that no individual public housing development has a concentration of higher income families. In order to affirm that the WRHA does not concentrate families with higher incomes, it shall be the goal of the WRHA not to occupy more than 60% of its units in any one public housing development with families whose incomes exceed 30% of the area median income. The WRHA shall track the status of family incomes, by development, on a monthly basis by utilizing income reports generated by the WRHA.

To accomplish the deconcentration goals, the WRHA shall take the following actions:

- A. At the beginning of each fiscal year, the WRHA shall establish a goal that 40% of its new admissions shall be families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous fiscal year.
- B. To accomplish the goals:
  1. Occupying not less than 40% of its inventory on an annual basis with families that have incomes at or below 30% of area median income, and
  2. Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total families living in the development with incomes that exceed 30% of the area median income, the WRHA's Tenant Selection and Assignment Plan, which is a part of this policy, provides for the utilization of local preferences with regards to applicant selection from its waiting list.
