[24 CFR Part 903.7 9 (a)]

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

The Mishawaka Housing Authority has only one (1) development site that is appropriate for the placement of families. There are no other options for a family other than Barbee Creek Village. The apartment sizes vary from efficiencies to five (5) bedrooms and offers of housing consider the size of the family in relation to the unit size available. Having only this one (1) location limit the ability of this Housing Authority to take additional steps related to HUD's efforts at deconcentration.

ATTACHMENT D-Pest Control Policy

The Mishawaka Housing Authority recognizes the importance of pest and vermin control in providing a living environment of adequate health and safety for its residents. To achieve this control the authority has adopted a pest control policy that will be implemented by the Maintenance Director.

PEST CONTROL AND EXTERMINATION

The Mishawaka Housing Authority will make all efforts to provide a healthy and pest-free environment for its residents. The Authority will determine which, if any, pests infest its properties and will then provide the best possible treatment for the eradication of those pests.

The Maintenance Director will determine the most cost-effective way of delivering the treatments—whether by contractor or licensed Authority personnel.

The extermination plan will begin with an analysis of the current condition at each property. The Maintenance Director shall make sure that an adequate schedule for treatment is developed to address any existing infestation. Special attention shall be paid to cockroaches. The schedule will include frequency and locations of treatment. Different schedules may be required for each property.

Resident cooperation with the extermination plan is essential. All apartments in a building must be treated for the plan to be effective. Residents will be given information about the extermination program at the time of move-in. All residents will be informed at least one (1) week before treatment. The notification will be in writing and will include instructions that describe how to prepare the unit for treatment. If necessary, the instructions shall be bi-lingual to properly notify the resident population.
