The HA may not renew or extend the lease if a household contains a nonexempt adult who has failed to comply with the community service requirement. Violation of the service requirement is grounds for nonrenewable of the lease at the end of the twelve month lease term, but not for termination of tenancy during the course of the twelve month lease term.

Specific lease language (excerpts from PART 1).

Acceptable self-sufficiency and community service shall include any of the following:

1.Work experience (including work associated with the refurbishing or maintenance of publicly assisted housing) if sufficient private sector employment is not available;

# 5. Exemptions to the requirement for community services and economic self sufficiency.

All adult members (over the age of 18) of families living in public housing shall either contribute eight hours per month of community service within the community in which the family lives, or participate in an economic self sufficiency program. Elderly persons, disabled persons, persons already working, persons exempt from work requirements under state welfare programs, or persons receiving assistance under state welfare programs are exempt from the requirement, The PHA must obtain written information from the local welfare agency to determine whether a resident is exempt from community service.

Exemptions shall be granted to adults who are 62 years of age or older, persons with disabilities, persons engaged in work activities (as defined by section 407(d) of the Social Security Act), and persons participating in a welfare to work program, or receiving assistance from and in compliance with a State program funded under part A, title IV of the Social Security Act.

Persons eligible for a disability deduction are not necessarily automatically exempt from the community service, economic self sufficiency requirement. The 1998 Act defines "disability" very narrowly for the purpose of the community service requirement. Further, the Act states that a person is exempt only to the extent the disability makes the person "unable to comply" with the community service requirement. The HA shall ensure that the community service and self-sufficiency programs are accessible to persons with disabilities.

Families who pay flat rent, live in public housing units within market rate developments, or families who are over income when they initially occupy a public housing unit are not automatically exempt.

# 6. Administration of qualifying community service or selfsufficiency activities for residents.

## e. Initial Resident notification of requirements.

The HA shall provide written notification of the provisions of the community service requirement to all residents, including a description of the service requirement, who is exempt, and how the exemption will be verified.

## b. **Determination of qualifying community service or self-sufficiency activities at pre- application.**

5. At pre-application time, each family member over the age of 1 S must declare exemption from the Community Service requirement or prior to occupancy each family member must sign an agreement and community service

plan to participate. If exemption is claimed, the exemption shall be verified as required by paragraph c below.

6. If the family member is not exempt, it is noted on the preapplication. Prior to lease signing, each adult family member must enter into a Community Service Agreement and develop a plan to comply with the Agreement.

7. Failure of an adult member to enter into a Community Service Agreement and develop a plan to comply with the Agreement will be cause for withdrawal of the offer for occupancy.

## c. Determining and documenting residents' exemptions.

The HA shall verify an adult's exemption status upon admissions and annually. An individual exempt by being over 62 years in age would not need verification. The HA shall document all exemptions for the resident's file. The HA shall follow the same standards of documentation for exemptions as it does for other verifications and will require a third party written verification.

# d. Changing exemption status.

A resident is permitted to change exemption status during the year if his/her situation changes. Unemployed residents, for example, shall be able to request a determination of exemption if they find work or start a training program. Persons eligible for a disability deduction are not necessarily automatically exempt from the community service, economic self- sufficiency requirement.

# e. Verifying compliance prior to lease renewal.

The HA shall verify compliance annually, at least 30 days before the expiration of the lease term. Self-certification by residents is not acceptable; third party certification must be provided by the entity with whom the resident is working.

# f. Noncompliance.

The HA shall determine, on an annual basis, if norexempt residents are in compliance. The HA shall permit noncompliant families to cure the noncompliance by requiring the noncompliant adult and the head of household to sign an agreement to make up the hours needed within the next 12month period. Continued noncompliance will result in eviction of the entire family, unless the noncompliant family member is no lorger a part of the household.

# g. **Compliance documentation**

Documentation must be provided to verify compliance with community service requirements. Selfcertification by residents is not acceptable; third party

certification must be provided by the entity with whom the resident is working. The documentation shall be placed in the resident's file at the time of reexamination.

## Step 3 - Deconcentration of Poverty and Income-Mixing in Public Housing Section 513 of the QHWRA

The AHA adopts these admission policies to achieve both the goals of reducing poverty and income mixing in public housing. The policy includes include slapping over certain applicants on the waiting list based on incomes. Skipping is applied only when it is necessary to serve the required percentage of the neediest families (extremely low income). Income skipping shall be uniformly applied.

The housing authority shall deconcentrate poverty in each of its housing developments by bringing higher income tenants into lower income public housing projects and bringing lower income tenants into higher income public housing projects. The housing authority shall make every effort to maintain the following income mix for each development:

• 40 percent of families with incomes below 30 percent of median ("very poor families") in a fiscal year.

• 60 percent of other admissions shall comply with eligibility limits under the current regulations (24 CF. 982.201(b)) and law.

To this end, the housing authority will take the following steps:

Initial assessment and current occupancy

- Sixty days before the start of the fiscal year, the housing authority shall assess each development to determine the percentage of families whose income are at or below 30 percent of median ("very poor families") of HUD's 1999 income limits. The housing authority will determine and compare the relative tenant incomes of each development and the incomes of the census tract in which the development is located.
- Developments where the percentage of families whose income are at or below 30 percent of median ("very poor families") of HUD's 1999 income limits exceeds 40%:
- Should the housing authority find that the percentage of families whose income are at or below 30 percent of median ("very poor families") of HUD's 1999 income limits exceeds 40% in any one development, the housing authority shall offer the opportunity for relocation to a development where the percentage of families whose income are at or below 30 percent of median ("very poor families") of HUD's 1999 income limits may be less than 40%. The offer of relocation will be based on the following:
- Availability of appropriate units in other developments where the percentage of units available or families whose income are below 30

percent of median ("very poor families") of HUD's 1999 income limits; and

- Ability of the relocating family to meet all admission requirements.
- For each development, should more families wish to relocate than the number of units available for families whose income are at or below 30 percent of median ("very poor families") in other developments, the housing authority shall conduct a lottery. The lottery will be publically held at a regularly scheduled board meeting. The name of each family wishing to relocate will be placed in the lottery box. A Board member will then draw the number of names from the box corresponding to the number of units available.
- \* As an incentive, the housing authority shall bear the cost of relocation. Relocation costs are limited to the actual cost of the move and utility deposits including telephone and cable TV, but only if the resident had a telephone and cable TV at the unit being vacated.
- \* Should the number of families necessary to achieve the 40% target chose not to relocate, the housing authority shall target the appropriate number of units and will apply the wait list skipping procedure defined below to occupy the units as units become available for occupancy.

# Maintaining deconcentration

Maintaining the 40% target of families whose income are at or below 30 percent of median ("very poor families") of HUD's current income limits.

The Quality Housing and Work Responsibility Act of 1998 (Pub. L. 105-276, 112 Stat. 2461, approved October 21, 1998) (QHWRA) allows a housing authority to offer incentives to eligible families that would help accomplish the deconcentration and income-mixing objectives. In addition, slopping of a family on a waiting list specifically to reach another family with a lower or higher income is permissible, provided that such skipping is uniformly applied.

Therefore, when a development's percentage of families meeting the 30 percent of median ("very poor families") of HUD's current income limits falls below 40% of the total units, the housing authority shall select the next eligible family from the wait list whose income is less than 30 percent of median ("very poor families") of HUD's current income limits and who meets all other admissions requirements. The housing authority shall continue selecting families in this manner until the 40% target is met.

Likewise, should a development's percentage of families meeting the 30

percent of median ("very poor families") of HUD's current income limits exceed 40% of the total units, the housing authority shall select the next eligible family from the wait list whose income is more than 30 percent of median ("very poor families") of HUD's current income limits. The housing authority shall continue selecting families in this manner until the 60°/o target is met.

Comment was received from Brenda Ray, Administrator Community Development from the City of Alexandria. Ms. Ray noted that the failure to use homeless as a preference on the Agency Plan did not comply with the five year plan of the City of Alexandria. Upon review of the City Consolidated Plan, the Alexandria Housing Authority placed homeless as a preference to comply with the City's Consolidated Plan. This policy only applies to public housing.
