ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

The Housing Authority of the City of East Point, GA (HACEPG) will focus on activities designed to increase the number of quality affordable housing units available to low and moderate income families. This will include disposition of the Nelms House and study of the remaining housing stock to determine its continued viability in light of new development activity taking place in the community.

HACEPG will us capital fund proceeds to correct deficiencies cited in REAC inspections as well as continuing to repair to gutters, soffits, fascia, roofs, erosion problems and improve the overall appearance of the developments. HACEPG will continue to improve the delivery of services to all residents and the families on its waiting lists. These initiatives are designed to maximize strategies geared to self-sufficiency combined with new approaches to the provision of affordable housing, including public-private partnerships to expand the inventory of affordable housing.

Home Ownership is a priority of HACEPG and the agency will consider approaches for implementation in both the Housing Choice Voucher and low income public housing contexts.

Management will look for training opportunities to assist staff in providing efficient and effective service to HACEPG's clients.

The board of commissioners is provided with monthly data regarding the low income housing choice program, housing choice voucher program and the financial condition of HACEPG. These monthly reports will continue. HACEPG will seek non-federal funding sources to increase affordable and work force housing opportunities throughout its area of service delivery.

Demolition and/or disposition of obsolete public housing to allow for the development of non-public housing, mixed income developments.

-] Other: (list below)
- 4. The Consolidated Plan of the jurisdiction supports the PHA Plan with the following actions and commitments:

The Consolidated Plan for the City of East Point identifies specific trends and needs for housing in the City. Page 114 identifies that the City of East Point has a higher proportion of pre-1940 homes than is common for the state as a whole. Therefore, this factor indicates the lack of new home construction that is primarily associated with dynamic growth in a suburb of a large metropolitan city.

The Housing Authority of the City of East Point, Georgia, undertakes programs that support all issues outlined in the City of East Point's Consolidated Plan. Through its public housing program, the HACEPG administers and maintains 483 units of affordable rental housing in the community. Further, through its modernization program, the HACEPG maintains these units to a high standard, which helps assure that the city has quality affordable rental dwellings available for families needing government subsidized rental housing. Through its Housing Choice Voucher Program, the HACEPG supports families in their ability to find suitable affordable housing in the city of East Point. The HACEPG also ensures that local landlords maintain their properties to a high standard.

Through these programs, the HACEPG increases the quantity of affordable housing, increases the pool of available renters, and helps arrest the further decline of housing quality in the city. Therefore, as the primary goals for the Consolidated Plan are to develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities for the low and moderate income persons, the HACEPG is consistent with the goals established. To this end, the HACEPG has diligently worked to extend and strengthen partnerships with government and private sector entities for the production and operation of affordable housing.

ADMISSIONS POLICY FOR DECONCENTRATION

Overview

Section 513 of the Quality Housing and Work Responsibility Act (QHWRA), enacted October 21, 1999 requires Public Housing Agencies to submit with their Annual Plan an admissions policy designed to provide for deconcentration of poverty and income mixing in public housing developments. The policy must be designed to bring lower income residents into high- income development and higher income residents into lower income developments.

The Final Rule of Public Housing Agency Plans published in 24 CFR Part 903 requires that Public Housing Agencies determine and compare the relative tenant incomes of each development occupied predominantly by families by families with children by determining the average household income in all such developments combined and define higher income developments as those where the average family income is over this average and lower income developments as those where the average family income is under this average. Public Housing Agencies are then required to consider what admissions policies or incentives, if any, will be needed to bring higher-income families into lower-income developments and vice versa.

The Housing Authority of the City of East Point, Georgia has completed such an analysis and reports that the analysis shows that three properties are within the allowable range of 85% (Hillcrest Homes, Washington Carver Homes and Martel Homes). However, Hurd Homes (GA 78-004) has 35 units and the average monthly income is above 115% of the average incomes for all developments.

An analysis of the waiting list shows that 98.84% of the families on the waiting list have an adjusted family income of less than 30% of the median. Therefore, wait list manipulation policies may not have the desired significant impact on achieving improvement in the income mixing at HACEPG properties.

As a strategy for achieving Deconcentration of poverty, the HACEPG will review each applicant's adjusted income. The HACEPG will consistently review the waiting list and ensure that income targeting does occur in assignment of units. When applicable based on

I. <u>Capital Fund Program</u>

unit availability, the applicants with higher incomes will be placed at Hillcrest Homes, Washington Carver Homes and Martel Homes and those with lower incomes will be Hurd Homes. If the family refuses the unit they will be placed at the bottom of the waiting list.

In addition to the earned income disregards and the transportation to work allowance, the most effective policy that the HACEPG can and will pursue in order to improve the income mix at HACEPG properties will be to redouble its efforts to help as many current residents as possible to work towards self sufficiency in pursuing training opportunities and overcoming barriers to successful employment.

GA-078-E-05 ATTACHMENT E

18.0 Pet Policy

18.1 EXCLUSIONS

This policy does not apply to animals that are used to assist persons with disabilities. Assistive animals are allowed in all public housing facilities with no restrictions other than those imposed on all tenants to maintain their units and associated facilities in a decent, safe, and sanitary manner and to refrain from disturbing their neighbors.

18.2 PETS IN FAMILY DEVELOPMENTS AND SENIOR BUILDINGS

The Housing Authority will allow for pet ownership in projects or buildings designated for use by elderly and/or disabled families and in any project or building for which elderly and/or disabled families are given preference. The Housing Authority will also allow for pet ownership in projects or building designated for the non-elderly and/or non-disabled families.

18.3 Approval

Residents must have the prior written approval of the Housing Authority before moving a pet into their unit. Residents must request approval on the Authorization for Pet Ownership Form that must be fully completed before the Housing Authority will approve the request. Resident must complete the Pet Registration Form upon initial request to add the pet and at least once annually at time of lease renewal.

18.4 Types and Number of Pets

The Housing Authority will allow only domesticated dogs, cats, birds, and fish in aquariums in units. All dogs and cats must be neutered and cats de-clawed.

I. <u>Capital Fund Program</u>

Only one (1) pet per unit allowed. One twenty (20) gallon aquarium with multiple fish shall be allowed.

Rodents, rabbits and reptiles of any sort are strictly prohibited.

Any animals deemed to be potentially harmful to the health or safety of others, including attack or fight trained dogs, will not be allowed.

No animal may exceed twenty (20) pounds in adult weight. The Housing Authority will refuse authorization to a resident to have a pet if the weight of the animal is anticipated to exceed twenty (20) pounds when fully grown. The resident will obtain adult weight by breed from a licensed veterinarian.

18.5 Inoculations

In order to be registered, pets must be appropriately inoculated against rabies and other conditions prescribed by local ordinances. The resident prior to being registered must supply verification of inoculations.

18.6 Pet Deposit

A pet deposit of \$100.00 is required in full at the time of registering a pet. Exceptions shall be made for elderly and/or disabled families, which allow the deposit to be paid in four (4) monthly installments of \$25.00. The deposit is refundable when the pet or the family vacates the unit, less any amounts owed due to damage beyond normal wear and tear.

18.7 Financial Obligation of Residents

Any resident who owns or keeps a pet in their dwelling unit will be required to pay for any damages caused by the pet. Also, any pet-related insect infestation in the pet owner's unit will be the financial responsibility of the pet owner and the Housing Authority reserves the right to exterminate and charge the resident.

18.8 Nuisance or Threat to Health or Safety

I. <u>Capital Fund Program</u>

The pet and its living quarters must be maintained in a manner to prevent odors and any other unsanitary conditions in the owner's unit and surrounding areas.

Repeated substantiated complaints by neighbors or Housing Authority personnel regarding pets disturbing the peace of neighbors through noise, odor, animal waste, or other nuisance will result in the owner having to remove the pet or move him/herself.

18.9 Designation of Pet areas

Pets must be kept in the owner's apartment or on a leash at all times when outside (no outdoor cages may be constructed). No pets are to be left unattended outside of the unit for any period of time. Pets will be allowed only in designated areas on the grounds of the development. Pet owners must clean up after their pets and are responsible for disposing of pet waste. A \$15.00 charge will be assessed, per occurrence; to any resident that fails to remove pet waste.

High or Low Rise multi-unit buildings: Pets must be on a leash and carried at all times while traversing the common areas inside of the building, including the elevators.

18.10 Visiting Pets

Pets that meet the size and type criteria outlined above may visit the projects/buildings where pets are allowed for up to two weeks with prior written permission from the Housing Authority. Tenants who have visiting pets must abide by the conditions of this policy regarding health, sanitation, nuisances, and peaceful enjoyment of others. If visiting pets violate this policy or cause the tenant to violate the lease, the tenant will be required to remove the visiting pet.

18.11 REMOVAL OF PETS

The Housing Authority, or an appropriate community authority, shall require the removal of any pet from a project if the pet's conduct or condition is determined to be a nuisance or threat to the health or safety of other occupants of the project or of other persons in the community where the project is located.
