1. Statement of Housing Needs [24 CFR Part 903.12 (b), 903.7(a)]

A. Housing Needs of Families on the Public Housing and Section 8 Tenant- Based Assistance Waiting Lists

The Housing Authority of the City of Vidalia has a total of 110 apartment units in three developments (001,002 & 005) contained on two sites. Sixty (60) of these units were built in 1957 and the remaining fifty (50) units were built in 1967. Development 001 which contains 30 units and was built in 1957 has been completely renovated on the interior with major work needed to the exterior grounds and installation of parking pads.

Development 002 which contains 30 units built in 1957 was partially renovated in the late 1980's. These units are now completely remodeled except for windows and doors. After completing Development 005, CFG funds will be directed to this Development as funds become available to replace the windows and doors.

Development 005 contains 50 units built in 1967 has received an Emergency CIAP Grant and a regular CFG Grant. This development needs to have all doors and windows replaced. All bathrooms need to be renovated to include showers. The elderly units need to be made handicap visitable and four made handicap accessible. CFG funds for Fiscal Year 2005 will be directed to this Development to replace windows and doors. As additional CFG funds become available, all work items will be completed in this Development in the next three years.

This Authority presently houses 109 families and a total of 259 people. Ninety five percent of these families are Very Low Income or Extremely Low Income people. Thirty two percent of these families are elderly/disabled people. At the present time this Authority has 33 applications for housing assistance with 39% looking for three bedroom apartments. All applicants fall within the very low and extremely low income classification with the exception of one. These applications only reflect the people who are willing to be on the waiting list for housing for over three months. This Authority constantly is receiving phone calls and people walking in asking about vacancies, and that they need immediate housing. This Authority explains the process of obtaining housing with this Authority and make recommendations of where to find subsidized housing such as the Lyons Housing Authority only six miles away with these people and most do not come back. It has been this Authorities experience that if housing is not immediately available most applicants and walk in's will find what ever housing they can which is normally not in good shape and a cost burden.

The Housing Authority of the City of Vidalia has a need for existing and additional subsidized housing in this authority's jurisdiction. This is evidenced by our PHA's and occupancy reports submitted over the last several years. The Housing Authority of the City of Vidalia does not experience continued vacancy problems due to the demand. As stated in the "Joint Comprehensive Plan for Toombs County", adopted by the City of Vidalia the city's dilapidated housing stock represents 3.1% of its housing units. This equates to 122 dilapidated units in the City of Vidalia alone which the Department of Community Affairs would consider the residents homeless. As stated in this plan and the "State of Georgia Consolidated Plan for 1998", there is a growing need for elderly and disabled as well as low and moderate income housing in this city. More housing is needed for the elderly and disabled and families of low and moderate income.

This Authority feels that our needs are consistent with the "State of Georgia Consolidated Plan for 1998" and the "Joint Comprehensive Plan for Toombs County".

If a significant deviation of this plan is anticipated, the PHA will be required to have this deviation approved by HUD. A significant deviation is when the PHA's housing needs or strategies for meeting these needs changes substantially, or the PHA anticipates substantial changes to its planned use of financial resources. Altering the needs or strategies for meeting these needs, but keeping the basic intent of each will not be considered a significant deviation. A substantial financial resources deviation would be a change of twenty percent (20%) of the total budget amount of each Capital Fund Grant program or each Operating Budget. The reason the percentage is set at twenty

percent is the fact that the PHA has to prepare estimated budgets a year in advance in order to have the Annual and Five Year Plan processed in accordance with the Federal Regulations.

The Housing Authority will offer a repayment agreement in accordance with the Section 19 of this policy for any rent not paid during the period of suspension. During the suspension period the Housing Authority will not evict the family for nonpayment of the amount of tenant rent owed for the suspension period.
- D. Long-term hardship. If the Housing Authority determines there is a long-term hardship, the family will be exempt from the minimum rent requirement until the hardship no longer exists.

9. Additional Information

[24 CFR Part 903.12 (b), 903.7 (r)]

A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan

One goal of the Housing Authority was to manage our existing public housing program in an efficient and effective manner and qualifying as at least a standard performer. The Vidalia Housing Authority received PHAS scores as follows: 1999 (93), 2000 (89), 2001 (91), 2002 (89), 2003 (89), 2004 (89) and 2005 (89). The Authority has met the goal of achieving a high standard performer. Another element of achieving this goal was to upgrade our maintenance positions for more qualified maintenance personnel. This was accomplished in September 2001, which has resulted in having better trained maintenance staff. This Authority has sent all staff to training opportunities throughout this period of time. The training of Authority staff has enabled this organization to operate with increased efficiency and economy.

Another goal was to provide a safe and secure environment in our housing developments. The Authority was successful in obtaining Drug Elimination Grants for 1999, 2000, 2001, and 2002. The grant programs were successful in keeping crime down in our developments which were reflected in our yearly surveys for these grant years. This Authority has constantly communicated with community leaders and residents to determine the level of safety perceived in our developments.

Another goal was to upgrade the marketability of our developments to attract working families. This Authority established a preference for working families and established a flat rent schedule which has made a significant change in our tenant makeup. This Authority has also continually upgraded our apartment units to make them more compatible to the private market for apartment units. This Authority's developments have all been made totally electric with central heat and air conditioning, have new kitchens, new flooring, new stoves and new refrigerators. All of our apartment units have had some sheetrocking installed with 55% completely sheetrocked. All apartment units have had substantial work completed that has made them more energy efficient with 55% being completely rebuilt inside and the remaining will be completed as soon as funds are made available.

Another goal was to work with local, state, and federal governments to provide or help provide affordable housing in our area. This Authority was called on two occasions to assist the City Council or Zoning Board to explain the impact and need of affordable housing needed in our City and area. This Authority also helped informally mediate between private developers and local officials proposed projects wishing to be located in the City. As a result the City has had an increase in affordable housing in our area. This Authority applied for and was awarded a State DCA grant to build up to 10 units of affordable housing in our area. However, due to the requirements and logistics this project would not cash flow and proper assurances could not be given to the Authority which in turn could not continue with the program. Authority representatives continue to attend meetings and workshops to try and locate sources of funding for much needed affordable housing. This Authority has met this goal.

B. Criteria for Substantial Deviations and Significant Amendments

a. Substantial Deviation from the 5-Year Plan

If a significant deviation of this plan is anticipated, the PHA will be required to have this deviation approved by HUD. A significant deviation is significant a change that would be made in the PHA's mission, goals and objectives. Altering the mission, goals and objectives but keeping the basic intent of each will not be considered a significant deviation. This Authority anticipates pursuing housing development in our community. Capital Fund money may be used for predevelopment cost as stated in the Capital Improvement Plan section. This does not represent a significant change or deviation for our goals and objectives.

b. Significant Amendment or Modification to the Annual Plan

If a significant Amendment or Modification of this plan is anticipated, the PHA will be required to have this deviation approved by HUD. A significant Amendment or Modification is when the PHA's housing needs or strategies for meeting these needs changes substantially, or the PHA anticipates substantial changes to its planned use of financial resources. Altering the needs or strategies for meeting these needs, but keeping the basic intent of each will not be considered a significant Amendment or Modification. A substantial financial resources Amendment or Modification would be a change of twenty percent (20%) of the total budget amount of each Capital Fund Grant program or each Operating Budget. The reason the percentage is set at twenty percent is the fact that the PHA has to prepare estimated budgets a year in advance in order to have the Annual and Five Year Plan processed in accordance with the Federal Regulations.

RESPONSE TO RESIDENT SURVEY

The Housing Authority of the City of Vidalia has 110 apartment units. At the time the survey was sent to the residents of this authority, there were approximately 93 occupied units.

COMMUNICATION – The lowest score was a question on communication 67.2%. Communication has consistently been the lowest score this Authority receives. As evidenced on this same survey, the national average score of Communication is always the lowest score of the Resident Survey for years. This Authority always responds to our tenants that have questions or concerns. The response may not be what the tenant wants to hear, but is the response given to the enforcement of the lease and other rules of the Authority. With the above mentioned pre-question –“courteous and professional with you?” This Authority always treats tenants courteously and professionally. However, when a tenant violates their lease, the Authority’s administrative personnel inform the tenant that the tenant has violated their lease, as we are required to do by regulations.

The questions this survey asks need to be reviewed for content and a determination needs to be made if the questions influence the outcome. This Authority questions if: 1. The tenant understands the question being asked?, 2. If the tenant does not like the regulations and rules they have to live with being in Public Housing?, or 3. Just wants to give the Authority a low score.

This Authority believes that item (2.) above is more than likely true due to the fact that the national average reflects the same result from the questions being asked nation wide. If this is the case there is nothing any Authority can do to change the regulations. We are Congressionally mandated to enforce the regulations.

NEIGHBORHOOD APPEARANCE –This Authority scored 69.7% on this section. Each of the Authority properties are located in low income areas of which we have no control of the non-authority properties appearance. Our units stand out among housing units that are dilapidated and unkept. These properties have old abandoned vehicles, trash, and debris on their properties. This Authority **DOES NOT HAVE** – abandoned cars, graffiti on buildings, trash/litter, broken glass, stairways, and hallways. This Authority aggressively monitors our properties and no vehicle with a flat tire, inoperable, or abandoned is allowed on our property. If a vehicle is found on our property or in front of an apartment, the police are contacted and the vehicle is towed away within 24 hrs. This Authority completes a drive by inspection of every apartment on Monday of each week. If litter is in the yard of a tenant a notice is sent for the litter to be picked up. If the litter is not picked up the Authority will pick it up and charge the tenant. If large items like couches, bed mattresses, etc. are put on the curb the Authority picks them up so that they will not be on the curb for two weeks for the City trash truck to pick up. This Authority does not allow tenants to have rodent or insect infestation in their units. This Authority inspects all apartments at least three times a year. If a unit is found to have infestation they are given a short period of time to get the infestation under control or face eviction. Of our 93 occupied units inspected in April, two had insects (5 roaches seen during inspection) and were re-inspected. When re-inspected, if the tenant had their infestation under control, the tenant would be allowed to stay.

This Authority does need parking pads for some of our apartments. Our Authority is concentrating on the interior of our apartments before doing any site work. The parking pads are among numerous items that the Authority has listed to be done pending fund availability by HUD.

CERTIFICATION OF FOLLOW UP PLAN – This Authority still does not understand why or how the 75% scoring benchmark was set by someone administratively when the **Quality Housing and Work Responsibility Act** states 60% or lower should have a follow up plan. The Housing Authority of the City of Vidalia plans to continue our efforts to maintain and improve our properties as funding becomes available. The Authorities properties are well maintained which will be reflected in our REAC inspection. The Authority will continue to communicate with our tenants at lease up time, recertification time, and during any meetings that they are invited to but rarely attend. The Authority feels that tenants have a responsibility to read their lease and contact the Authority on any area in the lease they do not understand. The Authority’s responsibility is to explain to all tenants their lease obligations and the Authority’s obligations to the tenant.
