C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

Lewiston Housing Authority will continue to optimize the use of its current programs by reducing public housing vacancies and actively marketing its Section 8 programs. We foresee no loss of public housing units except through conversion of efficiencies to one bedroom units at Blake Street Towers. The Section 8 Voucher Program works well in the present rental housing market and we would apply for additional units if they were available. We believe that the continued presence of project based Section 8 is important to the community and generally would support Mark-to-Market applications which would enable project based developments to retain their subsidy.

DECONCENTRATION POLICY

It is Lewiston Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Lewiston Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement. The worksheet for the analysis can be found in **Appendix I below**.

DECONCENTRATION INCENTIVES

The Lewiston Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The overall objective of the plan is to reduce drug use in and around our public housing developments through continuation of our Youth Enrichment Opportunity Program and the addition of new programs aimed at creating a “drug-free lifestyle”. The first strategy consists of drug education in the local schools. As part of the drug education program, a police officer will teach drug education to children in grades K-5. This program will further extend into our largest family development. Here, the drug education officer will be an integral link in promoting mutual trusting relationships between the public housing residents and the local police force. Another strategy of the plan is to promote personal enrichment and self-esteem in young adults. The Youth Enrichment Opportunity Program (YEOP) offers a wide variety of creative activities, such as music, dance and art. One on one teacher/student programs are offered as well as, group activities. Another objective is to provide adult activities that enhance family relationships and provide quality family-time together.
