The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

- low utilization rate for vouchers due to lack of suitable rental units
- access to neighborhoods outside of high poverty areas
- other (describe below:)

In a period of tight funding, project-basing assistance that targets elderly families and disabled families is more effective use of available HAP funds because payments for housing the elderly and disabled are generally less than to larger families that require larger units. The money freed by targeting up to 45 elderly and/or disabled families is expected to be able to house an average of 12 - 15 more families each month than would be the case without project-basing. The Greensboro field office of HUD has approved our Site Selection Policy for elderly and disabled families.

316.01, and 316.02
