D. Other Information Required by HUD

Use this section to provide any additional information requested by HUD.

Definition of “Substantial Deviation” and/or “Significant Amendment or Modification.”

The Milan Housing Authority will consider a “Substantial Deviation” to be a change in the Mission, Goals, and Objectives of the PHA Plans that is duly determined by the Board of Commissioners and the Resident Advisory Board to be a deviation from the latest approved PHA Plans. If the Board of Commissioners and the Resident Advisory Board consider the change(s) in

the Mission, Goals, and Objectives to be substantial, in their determination, the Plans will be submitted to HUD for review and approval.

In addition, if there is a change in funding of greater than 20 percent of the Operating Budget and/or the Capital Fund amount, this will be considered an amendment/modification to the Plans, except for emergencies that are beyond the control of the PHA. If the item/activity is included in the 5-year Capital Improvement Program, it will not be considered a significant change although the cost may exceed the 20 percent threshold; therefore, not requiring HUD review and approval.

Use this section to provide any additional attachments referenced in the Plans.

DECONCENTRATION POLICY:

The objective of the De-concentration Rule for public housing units is to ensure that families are housed in a manner that will prevent concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the PHA is to house no less than 40% of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also, the PHA will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the PHA does not concentrate families with higher income levels, it is the goal of the PHA not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The PHA will track the status of family income, by development, on a monthly basis by utilizing income data maintained by the PHA. To accomplish the de-concentration goals, the PHA will take the following actions:

1. At the beginning of each PHA fiscal year, the PHA will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous PHA fiscal year.

1. To accomplish the goals of:
 - ❖ Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income; and
 - ❖ Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, in accordance with the incentives reflected in Section II, 6, Resident Selection, of the PHA's ACOP.

**RESIDENT SERVICES AND SATISFACTION
FOLLOW-UP PLAN**

(Attachment tn031a05)

January 1, 2004-December 31, 2004

In Fiscal Year 2005, the HUD Real Estate Assessment Center (REAC) conducted a Resident Services and Satisfaction Survey of the residents of the Milan Housing Authority, TN031. As a result of the Survey of the residents, the Housing Authority is required to prepare a Resident Satisfaction Follow-up Plan for two (2) of the five (5) Sections/Factors reflected in the Survey.

It must be noted that the Housing Authority's scores were based on a sample survey that was sent to 92 residents and only 41 surveys were returned to HUD. This represents a response rate of only 44.6 percent while the National average response rate is 64 percent.

The two Sections/Factors that the Housing Authority received the lowest scores were Communications with a score of 73.8 percent and Neighborhood Appearance with a score of 71.7 percent. All other Sections/Factors were above the 75 percent threshold.

The following is an evaluation of the survey scores for Communications and Neighborhood Appearance:

COMMUNICATION

The Survey reflected the following concern regarding communication:

1. Residents believe that management could provide more information concerning maintenance and repairs. This question received a score of 66.9 percent.
2. In accordance with the survey, residents believe that management fails to provide information about meetings and events with a score of 71.4 percent.
3. Residents believe that management is not supportive of the resident/tenant organization with a score 69.1 percent. It must be noted, however, there is not an officially recognized resident organization. It is difficult for management to support a resident organization when no officially recognized resident organization exists.

NEIGHBORHOOD APPEARANCE:

Based on the resident survey results the concerns of the residents under the Neighborhood Appearance Section/Factor, were as follows:

1. The residents believed that the upkeep of the various areas identified in the survey could be improved. The following areas received low scores: common

areas (74.2 %), exterior of buildings (72.2 %), parking areas (71.7 %), and recreation areas (53.2 %).

2. Other areas identified under Neighborhood Appearance that received low scores in the survey and were concerns to the residents are as follows: rodents and insects (73.5 %), trash/litter (63.9 %), and noise (60.0 %).

PLAN ACTIONS:

In an attempt to improve the Resident Services and Satisfaction concerns of the residents the following actions will be implemented before and during the coming Fiscal Year as the Housing Authority's Resident Services and Satisfaction Follow-up Plan:

COMMUNICATION:

1. Since the residents were concerned about receiving information regarding maintenance and repairs, the Housing Authority will continue to provide notices to the residents in accordance with the Lease and attempt to resolve this concern.
2. Management will make an exerted effort to provide necessary information to Residents about meetings and events in a newsletter.
3. Management will assist the residents in the establishment of a resident/tenant organization, if it is the desire of the majority of the residents to have an officially designated organization. A survey of the residents will be conducted to determine the appropriate action.

NEIGHBORHOOD APPEARANCE:

1. The Housing Authority has provided some landscaping activities where needed and will attempt to make sure that residents keep their yard clean in order to correct this concern.
2. The Housing Authority will also hold meetings and discuss the concerns of the residents before submission of the Public Housing Agency Plans.
3. The Housing Authority may implement the stipend program for any resident that wishes to participate in the upkeep of the developments. This will provide an incentive for the residents to keep the development free of trash and liter.
4. The Housing Authority will determine the locations of the parking areas where improvements are needed and will include funding in the Capital Fund 5-Year Action Plan and/or the Extraordinary Maintenance Work Statement.
5. The Housing Authority will evaluate the implementation of the current pest control contract to determine its effectiveness. If improvements are not seen, the contract will be terminated and another pest control contract will be solicited. In addition, the residents will be notified that they need to notify the Housing Authority's Management and Maintenance Staff when there is a need for additional spraying.

6. Noise was identified as a concern but the Housing Authority is not aware of what type of noise the residents are concerned with. In past years the Resident Advisory Board Members have reported that the noise was from automobiles passing through the developments. Since the automobiles are on a public street, the Housing Authority Management has little control. In addition, without knowing the specifics noise concerns in the development, it is difficult to determine what actions can be undertaken by Management to resolve the concerns.

Mission and Goal Progress:

The PHA has responded to the Resident Services and Satisfaction Survey (Attachment tn031a05) identifying efforts to increase customer satisfaction within the developments.

Efforts to improve management functions are included in the amendments to the ACOP and Lease.

Income mix is being accomplished by implementation of ACOP revisions and admissions criteria.

Increasing the number and percentage of employed persons in the developments is being accomplished by a preference for working families included in the revised ACOP.

Based on the PHA's waiting list the goals to ensure equal opportunity in Housing for all Americans are being met.

Physical improvements have been made to the developments in the amount of \$305,000 for roofs, bathroom & kitchen improvements, security, and parking.

Strategy Plan for Reducing Exigent Health & Safety (EH & S) Deficiencies

In May 2005, the HUD REAC Inspection Report identified seven (7) Health and Safety Deficiencies. The following is a list of the noted deficiencies:

1. Broken Glass: There were four (4) incidences of broken glass at the two- (2) development sites.
2. Sidewalks: There was one (1) incidence of a tripping hazard relating to sidewalks.
3. Mold & Mildew: There were five (5) incidences of mold and mildew in the bathrooms and on the tub/shower caulking.
4. Windows Inoperative: There were five (5) incidences of inoperative windows or broken windows.
5. Insects/Infestation: There were four (4) incidences of roach infestation.
6. Screen/Storm Doors: There was one (1) incidence where there was a sharp edge on the screen door.
7. Exposed Wire: There was one (1) incidence of an exposed wire/open panel in the maintenance shop.

The following is an Implementation Plan to correct the identified EH & S deficiencies during the upcoming fiscal year:

1. Broken Glass: The broken glass is a result of individuals throwing bottles in the yards and common areas. Since the residents mow their own yards, the Housing Authority will encourage the residents to pick-up any bottles and trash before mowing. The common areas of the development sites are mowed by a contractor. The Housing Authority will instruct the contractor to pick-up any bottles and trash before beginning to mow.

In addition, the Housing Authority will solicit assistance from the residents through the use of the stipend program to pick-up broken

glass and trash. This program will allow the Housing Authority to pay residents up to \$200 a month to provide the assistance in their operations.

2. Sidewalks: A complete review and evaluation of all of the sidewalks of the development sites will be conducted to determine any tripping hazards of 3/4" or more that needs to be corrected. These locations will be noted and marked and a contract or purchase order will be executed to correct the deficiencies.
3. Mold & Mildew: The mold and mildew in the bathrooms are a result of poor ventilation and improper house cleaning. In June 2005, the Housing Authority completed the installation of bathroom ceiling exhaust vent fans in all of the bathrooms. The exhaust vent fans are connected to the light switch so that when the bathrooms are used the exhaust fans are turned on. Thereby eliminating the possibility that the exhaust fans would not be turned on when the showers were in operation.

In addition, the Housing Authority during the upcoming fiscal year will conduct a review and evaluation of all bathrooms and remove the existing caulking and install new caulking where appropriate.

4. Windows Inoperative: Most of the windows that were inoperative was a result of the bottom and top sashes hitting each other; thereby not allowing the windows to operate properly. In order to correct this problem, the Housing Authority has included in the Extraordinary Maintenance Work Statement for FY 2006, the replacement of all windows in the development.
5. Insects/Infestation: Since the Housing Authority has a pest control contract and spraying is conducted on a regular basis, the infestation of roaches in some of the dwelling units is a result of the residents not letting Management know there is a problem. It might also be the possibility that the pest control contractor is not doing a complete job and there needs to be a re-evaluated for continuation. When the dwelling units are reviewed and evaluated for other items identified above, an evaluation of the pest control will also be conducted.
6. Screen Doors: There was only one (1) incidence of a screen door problem. However, the Housing Authority has proposed that all screen doors, both front and back, will be replaced. The screen door replacement is included in the Extraordinary Maintenance

Work Statement for FY 2005 and should be completed before the end of the current fiscal year.

7. Exposed Wire: There was only one (1) exposed wire identified during the physical inspection in the maintenance shop. This condition/deficiency has been resolved.
