C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

Our agency is part of the entire effort undertaken by the city to address our jurisdiction's affordable housing needs. As stated above, the need for housing is shown by the chart from our Community Development Department. While we cannot ourselves meet the entire need identified here, in accordance with our goals included in this Plan, we will try to address some of the identified needs by using appropriate resources to maintain and preserve our existing stock. When appropriate and feasible, we will apply for additional grants and loans from federal, state and local sources, including private sources to help add to the affordable housing available in our community. We intend to work with our local city officials to try to meet these identified needs.

This year, we expect to receive \$1,600,000 for our existing programs. We will continue to use those resources to house people. At this time we intend to apply for additional Section 8 Rental Assistance Units. Priorities and guidelines for programs often change from year to year and our decisions to pursue certain opportunities and resources may also change over the coming year if there are program changes beyond our control.

The following section states the PHA's procedures and policies in regard to minimum rent financial hardship as set forth by the Quality Housing and Work Responsibility Act of 1998. ADMISSION POLICY ON DECONCENTRATION

DECONCENTRATION OF POVERTY AND INCOME-MIXING

The PHA's admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Such skipping will be uniformly applied until the target threshold is met.

The PHA will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the PHA in its deconcentration goals.

Project Designation Methodology

The PHA will determine and compare tenant incomes at the developments listed in this Chapter.

The PHA will determine and compare the tenant incomes at the developments listed in this Chapter and the incomes of census tracts in which the developments are located.

Upon analyzing its findings the PHA will apply the policies, measures and incentives listed in this Chapter to bring higher income families into lower income developments and lower income families into higher income developments.

The PHA's goal is to have eligible families having higher incomes occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and eligible families having lower incomes occupy dwelling units in projects predominantly occupied by eligible families having higher incomes.
