5-YEAR PLAN
PHA FISCAL YEARS 2000 - 2004
[24 CFR Part 903.5]

A. Mission

The mission of the Alliance Public Housing Authority (APHA) is to provide safe and decent affordable housing in a living environment that fosters both economic and social diversity among the resident population as a whole. To that end, we pledge that we will treat each individual on the basis of their individual merits, and without presumption of ability based on age, race, color, religion, sex, national origin, familial status, or disability.

B. Goals

Goal: Increase the availability of decent, safe, and affordable housing.

APHA Goal: To expand the supply of assisted housing

Objective: Reduce public housing vacancies:

Method: The APHA will make extended efforts to increase Public Housing occupancy by increasing the marketing of unit availability. Flyers will be posted at local human service agencies, advertising will be conducted through various media sources (radio, newspapers, etc.), public speaking, etc. Measurement of success in this regard will be compiled by use of APHA tracking.

Objective: Leverage private or other public funds to create additional housing opportunities:

Method: The APHA will search for available funds to create additional affordable housing in its jurisdiction. The agency will correspond with both private and public financial agencies to fund future projects. Measurement of success will be shown by actual physical site procurement and building construction.

Objective: Acquire or build units or developments:

Method: The APHA is currently in discussion with USDA/Rural Development concerning acquisition of an existing property in the city, and also has discussed property acquisition with the city concerning available property for future housing use.

APHA Goal: Improve the quality of assisted housing

Objective: Improve public housing management: (PHAS score)
Method: The APHA will utilize the most recent PHAS score for the agency in an effort to improve in the areas of deficiency as indicated. In particular the agency will focus on vacancy rate, CIAP Grant Administration, and unit turnaround. Measurement will be based upon improvement in these factor areas on future PHAS ratings.

Objective: Improve voucher management: (SEMAP score)
Method: Although the APHA has not yet been rated under the SEMAP Guidelines, agency staff has been trained in these requirements, and will use those requirements as outlined to bring about improvements in the Section 8 Programs. Measurement will be based on future SEMAP scores.

Objective: Increase customer satisfaction:
Method: The APHA will use information generated by the HUD RASS to implement programs and policies that will meet the needs of the tenant as indicated in the survey. Measurement will be based on future RASS results.

Objective: Concentrate on efforts to improve specific management functions:
Method: The APHA will utilize all available assessment tools and surveys that provide information in regard to needed improvement in specific management functions. Specifically the agency has targeted; HQS Inspection method improvements, grant and general budget revenue and expenditure improvements, utility expense improvements, and other lower priority items. Measurement will be based on documented improvement in the specified areas.

Objective: Renovate or modernize public housing units:
Method: The APHA will utilize accessible funds; CIAP Grants, Affordable Housing Trust funds, HOPE grant monies, etc., to replace existing and obsolete Public Housing units, and to modernize units not targeted for replacement. Measurement will be based on physical site improvement and documentation showing improvement and modernization.

Objective: Demolish or dispose of obsolete public housing:
Method: The APHA has targeted the replacement of the South Potash or Maxwell Square location as obsolete housing. These units are nearly twenty years old, and were of poor construction when built. All units at this location have required extensive repairs, and location of the units in an economically depressed area of the town has created a lack of social and/or economic growth for the tenants in this project. It is intended that available HOPE VI funds might be utilized to carry out the replacement of these units. The APHA has targeted 9-30-2004 as the latest date for completion. Measurement will be based upon successful completion of this goal.

APHA Goal: Increase assisted housing choices

Objective: Provide voucher mobility counseling:
Method: All applicants and tenants will be counseled of voucher mobility during the initial and recertification briefing process. Measurement will be based on documentation showing this counseling to be a part of the process.

Objective: Conduct outreach efforts to potential voucher landlords:
Method: Outreach efforts will be carried through public and one to one meetings and discussion. Public relations efforts will be the primary source of outreach; public speaking arrangements, landlord/agency meetings, various media press releases, etc. This process is underway and measurement will be based on increased unit availability.

Objective: Increase voucher payment standards: Method: This will be accomplished by implementing annual increases in payment standards by allowable amounts as established by HUD Guidelines.

Objective: Implement public housing or other homeownership programs:
Method: The HA will take steps to utilize programs such as; NIFA Housing Programs, Nebraska Affordable Housing Trust Funds, Low Income Tax Credits, etc., to construct first time home buyer/affordable housing units for lease and lease to buy purposes.

Objective: Implement public housing site-based waiting lists: Method: The HA currently, and for some time, has utilized site based waiting lists at its projects.

HUD Strategic Goal: Improve community quality of life and economic vitality

PHA Goal: Provide an improved living environment

Objective: Implement measures to deconcentrate poverty by bringing higher income public housing households into lower income developments: Method: The HA has taken steps necessary to deconcentrate poverty in its various projects by mixing income levels among project families.

Objective: Implement measures to promote income mixing in public housing by assuring access for lower income families into higher income developments: Method: The HA has removed site specific income requirements from all of its projects, and this has allowed mixing of income levels.

Objective: Implement public housing security improvements: Method: The HA will target Capital Fund amounts in the future to specifically address security issues on the properties. Currently the HA has a strong working relationship with local law enforcement and functions in a cooperative manner with those agencies to insure improved intervention at project locations.

HUD Strategic Goal: Promote self-sufficiency and asset development of families and individuals

PHA Goal: Promote self-sufficiency and asset development of assisted households

Objective: Increase the number and percentage of employed persons in assisted families: Method: The HA has promoted employment and self sufficiency of HA housing assisted individuals through cooperative arrangements with local educational and employment related businesses to provide low or no cost programs to individuals receiving housing assistance through its office. The HA has allowed for the use of its Community Room at no cost to; Alliance Continuing Education who provided GED and other types of family self sufficiency training (family budgeting, employment applications and interview dress, dietary training, etc.). Through the local job service, the HA has participated in the JTPA Program.

Objective: Provide or attract supportive services to improve assistance recipients' employability: Method: The HA has worked in a cooperative manner with such local agencies as; Nebraska Job Service (JTPA), and the Alliance Continuing and Adult Education Programs.

HUD Strategic Goal: Ensure Equal Opportunity in Housing for all Americans

PHA Goal: Ensure equal opportunity and affirmatively further fair housing

Objectives: Undertake affirmative measures to ensure access to assisted housing regardless of race, color, religion national origin, sex, familial status, and disability: Method: The HA has a strong working relationship with various human service agencies whose missions are to provide services and support to families and individuals from various racial and ethnic backgrounds. Some of these agencies are; The Office of Human Development, Migrant Farm Services, American Indian Mission, Nebraska Department of Social Services and the Northwest Community Action Council.

Objective: Undertake affirmative measures to provide a suitable living environment for families living in assisted housing, regardless of race, color, religion national origin, sex, familial status, and disability: Method: The HA works closely with the City of Alliance Building and Zoning Department and in a cooperative manner with that department. Through this relationship the HA is taking measures in a participatory manner to insure that ALL persons are living in safe and decent affordable housing. This participation with local government is implemented not only in regard to Public Housing Units, but also to Section 8 and other similar publicly assisted programs throughout the city of Alliance.

Objective: Undertake affirmative measures to ensure accessible housing to persons with all varieties of disabilities regardless of unit size required: Method: In 1997 the HA took measures to insure that the minimum required number of units meeting Section 504 of the ADA were available in its Public Housing Program. Additionally, the agency through local contacts with other housing agencies and landlords has worked to promote efforts to provide more suitable barrier-free units. The HA also currently has a working cooperative arrangement with the Office of Human Development, a human service agency that provides residential and vocational services to developmentally disabled individuals and families.

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

In accordance with information obtained by the HA through the Comprehensive Plan of the City of Alliance, it is estimated that by 2010 there will be a need of 625 more housing units in the city. Of these, it is estimated that 413 would need to be single family dwellings, and 212 multi-family units. The Comprehensive Plan indicates that more than 11% of the households in the city of Alliance are considered impoverished, and that more than 48% of the households have incomes of \$24,999 or less per annum. When family and household composition is taken into consideration, it is assumed that approximately 30% of the households in the city would meet affordable housing income guidelines. With these numbers in mind, it can be assumed that the housing need in the city by the year 2010 would call for the construction of approximately 188 affordable housing units.
