The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. - To operate a socially and financially sound public housing agency that provides decent, safe, and sanitary housing within a drug free, suitable living environment for tenants and their families.
- To lawfully deny the admission of applicants, or the continued occupancy of residents, whose habits and practices reasonably may be expected to adversely affect the health, safety, comfort or welfare of other residents or the physical environment of the neighborhood, or create a danger to PHA employees.
- To attempt to house a tenant body in each development that is composed of families with a broad range of incomes and rent-paying abilities that are representative of the range of incomes of low-income families in our jurisdiction.
- To facilitate the judicious management of our inventory, and the efficient management of staff.
- To ensure compliance with Title VI of the Civil Rights Act of 1964 and all other applicable Federal laws and regulations so that the admissions and continued occupancy are conducted without regard to race, color, religion, creed, sex, national origin, handicap or familial status.

- To promote a housing program which maintains quality service and integrity while providing an incentive to private property owners to rent to

very low income families.

- To promote a market-driven housing program that will help qualified low-income families be successful in obtaining affordable housing and increase the supply of housing choices for such families.

3. The Consolidated Plan of the jurisdiction supports the PHA Plan with the following actions and commitments: (describe below)

The State Consolidated Plan Action Plan identifies the following State Priorities:

A. Affordable Housing

-

The provision of affordable housing for low and very low-income households in the State is a major priority. Specific actions required to address the affordable housing need include the preservation and rehabilitation of existing housing stock and homebuyer assistance as well as other actions.

B. Supportive Housing for the Homeless

The provision of supportive housing is a priority in the State's Consolidated Plan. In addition to programs to address supportive housing for the homeless, the State will address programs to meet the needs of the population at risk of being homeless.

C. Supportive Housing for Persons With Special Needs

The State has identified an increasing need for programs for the elderly and persons with disabilities and for housing that is integrated in and typical of local communities. This priority includes addressing the needs for persons with alcohol and substance abuse problems and the need for drug-free affordable housing.

The Action Plan addresses the following activities will be maintained by the State regarding Public Housing Resident Initiatives:

- Resource Guide updates on PHA homeownership programs.
- NOFA distribution to statewide housing organizations and advocacy groups on federal and state-funded resident management and homeownership programs, as is available.
- Limited application review via the Consolidated Plan Certification of Consistency process for applicable programs.
- Participation of interested groups, including PHA tenant representatives, on the OHCS Advisory Committee.

The Action Plan addresses the need for changes to be made by the State with regard to welfare reform and housing. The State is joining forces with other State agencies, nonprofit organizations and PHAs to address the needs of low income residents moving from welfare to work.

**Illinois Carbon Monoxide Alarm Detector Act**

The Illinois General Assembly has passed and the Governor has signed the Carbon Monoxide Alarm Detector Act (Public Act 094-0741). This new law, effective January 1, 2007, requires homeowners and landlords to install carbon monoxide detectors in all buildings containing bedrooms and sleeping facilities.

As a result of this new law, the Ogle County Housing Authority has included the following language in their Admissions and Continued Occupancy Policy and the Section 8 Administrative Plan as follows:

**Admissions and Continued Occupancy Policy**

**17.3 Preventative maintenance inspections**

This is generally conducted along with the annual inspection. This inspection is intended to keep items in good repair. It checks weatherization; checks the condition of the smoke detectors, carbon monoxide alarms, water heaters, furnaces, automatic thermostats and water temperatures; checks for leaks; and provides an opportunity to change furnace filters and provide other minor servicing that extends the life of the unit and its equipment.

**Section 8 Administrative Plan**

**12.5 Exceptions to the HQS Acceptability Criteria**

The Ogle County Housing Authority will utilize the acceptability criteria as outlined above with applicable State and local codes. Additionally, the Ogle County Housing Authority has received HUD approval to require the following additional criteria:

- A. In each room, there will be at least one exterior window that can be opened and that contains a screen.
- B. Adequate heat shall be considered to be 68 degrees.
- C. In units where the resident must pay for utilities, each unit must have separate metering device(s) for measuring utility consumption.

- D. A ¾" overflow pipe must be present on the hot water heater safety valves and installed down to within 6 inches of the floor.
- E. Every dwelling unit shall be equipped with at least one approved carbon monoxide alarm in an operating condition within 15 feet of every room used for sleeping purposes. The carbon monoxide alarm may be combined with smoke detecting devices provided that the combined unit complies with the respective provisions of the administrative code, reference standards, and departmental rules relating to both smoke detecting devices and carbon monoxide alarms and provided that the combined unit emits an alarm in a manner that clearly differentiates the hazard.

Every structure that contains more than one dwelling unit shall contain at least one approved carbon monoxide alarm in operating condition within 15 feet of every room used for sleeping purposes.

It is the responsibility of the owner of a structure to supply and install all required alarms. It is the responsibility of a tenant to test and to provide general maintenance for the alarms within the tenant's dwelling unit or rooming unit, and to notify the owner or the authorized agent of the owner in writing of any deficiencies that the tenant cannot correct. The owner is responsible for providing one tenant per dwelling unit with written information regarding alarm testing and maintenance.

The tenant is responsible for replacement of any required batteries in the carbon monoxide alarms in the tenant's dwelling unit, except that the owner shall ensure that the batteries are in operating condition at the time the tenant takes possession of the dwelling unit. The tenant shall provide the owner or the authorized agent of the owner with access to the dwelling unit to correct any deficiencies in the carbon monoxide alarm that have been reported in writing to the owner or the authorized agent of the owner.

The carbon monoxide alarms may be either battery powered, plug-in with battery back-up, or wired into the structure's AC power line with secondary battery back-up.
