The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

 - *Increase the amount of voucher or other rental assistance funding in the County*
 - *Advocate tax policies that promote affordable housing construction*
 - *Increase public awareness for the need and benefit of affordable housing*
- *Evaluate and reduce lead based paint hazards*
- *Reduce obstacles to meeting underserved needs*
- *Reduce the number of persons in poverty*
- *Enhance coordination between public and private housing and social service agencies*
- *Create an active and participatory continuum of care planning process to address the needs of the homeless*

6. Proposed Changes to Admissions Policy

The Authority has determined it necessary to adopt a displacement preference and a residency preference when selecting names for admission into the Public Housing program. The Authority also has determined that it is necessary to establish a residency preference for selecting names for admission into the tenant based Section 8 Voucher program. The Authority has solicited public comment and has reviewed the issue with the Resident Advisory Board at its May 3, 2007 meeting and at the June 28, 2007 meeting.

The waiting list for the 2 bedroom, 3 bedroom and 4 bedroom waiting list for public housing has now been exhausted, so prior to selecting new names, it is appropriate to establish the new preferences. In essence, if an applicant can prove that they are being displaced as a result of government action or by a federally declared disaster, the application will be considered first for housing prior to other applicants on the list. The reason for this particular change is to assist applicants displaced at the Whispering Oaks manufactured home park which is currently under redevelopment (see discussion below regarding “generally accepted data sources”).

The proposed changes also include establishing a “residency preference” for the HRA list for Washington County residents or employees. These applicants would then be second after a displaced applicant. The third selection would then be by lottery number of applications.

The proposed definitions of the two preferences are as follows:

- 1) Displacement preference: for applicants (a) displaced as a direct result of rehabilitation, demolition, or acquisition due to federal, state, or local governmental action in Washington County, or (b) whose dwelling has been extensively damaged or destroyed as a result of a disaster in Washington County declared or otherwise formally recognized pursuant to Federal disaster relief laws, such as fire, flood, or tornado.
- 2) Residency preference for applicants who live or are employed in Washington County.

Applicants who qualify for the above preferences must also satisfy the application requirements, income requirements and screening criteria described in the Authority’s policy. Applicants who qualify for the residency preference must verify residency or employment in the County including but not limited to a Minnesota driver’s license, a current lease, letter from parents, and/or proof of employment for more than 30 days etc. For the displacement preference, written verification may include documentation from the displacing government agency, proof of residency in disaster declared areas or other documentation acceptable to the Authority.

The Authority has also determined that revisions to the Admissions and Continued Occupancy Policy are necessary in regards to deposits for pets, compliance with the Violence Against Women Act, and other matters. The Authority does not regard these amendments as significant modifications or an amendment to its Annual Plan.

Violence Against Women Act and Amendments of 2005

The Washington County HRA supports the goals of the Violence Against Women Act (VAWA) and will comply with its requirements. The Authority will continue to administer the Section 8

Housing Choice and Public Housing programs in a manner that supports and protects the residents and applicants who may be victims of domestic violence, dating violence, sexual assault or stalking. The Authority will not take any adverse action against a resident/participant or applicant solely on the basis of her or his being a victim of such criminal activity, including threats of such activity. "Adverse action" in this context includes denial or termination of housing assistance. The Authority will not subject a victim of domestic violence, dating violence, sexual assault or stalking to a more demanding standard for lease compliance than other residents. The Authority will develop policies and procedures as needed to implement the requirements of VAWA.

Resident Advisory Board Comments

On May 3, 2007 and on June 28, 2007, the Resident Advisory Board discussed the proposed displacement preference and the residency preference. At both meetings, the Board had no adverse comments about the proposed preferences. One resident in particular spoke in favor of the residency preference stating that the preference would meet local housing needs.

Generally Accepted Data Sources-Displacement Preference

The Authority purchased Whispering Oaks Manufactured Home Park in 1993 in the City of Oakdale. The Park experienced significant and ongoing infrastructure problems that lead the Authority to consider its options and responsibilities as the owner. The Authority determined that the most prudent use of resources is to replace the existing use with new, affordable housing options for a variety of families in different life stages. The Authority's proposed redevelopment plan will allow for the site to be served by rebuilt utility systems that meet current state and local code requirements as well as new street and parking areas, recreational areas and pedestrian paths. The site location advantages make it perfect site to add much-needed quality affordable housing for working families and seniors in Washington County. The City approved the proposed plan in November 2006. Approximately 38 families were living in the Park at that time.

The Authority understands that it is crucial to implement a careful program of relocation assistance for the residents and to assist them in evaluating as many advantageous housing options as possible. To this end, the Authority conducted regular meetings with the affected families during the redevelopment planning process (since 2002) at which a displacement preference was suggested. With those comments, the Authority ultimately prepared and adopted a relocation plan in November 2006. One of the key features of the relocation plan was to enable the affected families to have a displacement preference for other housing in the Authority's housing portfolio.

Generally Accepted Data Sources-Residency Preference

In order to make its finding for the need for a residency preference, the Authority used public comments, the County Consolidated Plan, and the Authority's experience with its waiting lists.

- 1) The amount Housing Choice Vouchers in the County is very small at 90 vouchers. The Washington County Consolidated Plan (dated 2005 – 2009) states that other jurisdictions in the Twin City Metropolitan Area have 10 times more vouchers per low and moderate income households than the Washington County allocation. Further, Washington County*

would need 781 more vouchers to be at par with other jurisdictions (page 36). Therefore in order to serve the County's housing needs, establishing a preference for applicants who live or work in the County would maximize the use of the Housing Choice Voucher Program to meet local housing needs.

- 2) The need for affordable rental housing is significant in the County. The Consolidated Plan documents the significant need:
 - o Housing costs have increased in the County, especially for rental units. The Consolidated Plan documents the increase in rent for a two bedroom apartment from \$651 in 2000 to \$951 in 2004 (a 46% increase).
 - o More than 50% of low and moderate income households in the County are "cost-burdened" and spend over 30% of income for housing costs (see pages 16 and 17).
- 3) There were no adverse comments from the Resident Advisory Board or the general public on this matter.
- 4) The size of the waiting lists for the Section 8 Housing Choice Voucher and Public Housing program indicates a shortage of affordable housing. In 2004, when the waiting lists for each program were opened simultaneously, over 2,000 applicants filed for a Section 8 voucher and over 1,600 applicants filed for the public housing program.

Based on the above sources of data, the residency preference will enable the Authority to accomplish badly needed affordable housing in Washington County.
