A. Compliance with the Violence Against Women Act.

HUD has asked housing authorities to amend their annual plans to include a statement about compliance with the Violence Against Women Act of 2005 (VAWA). HUD has yet to issue regulations implementing the act so this attachment is a brief statement of the BHA's willingness to comply with the provisions of the act and implementing regulations when published.

- The BHA presently provides a preference for tenant selection to its Section 8 voucher program for victims of domestic violence.
- In case of an action to evict from public housing or to terminate Section 8 assistance, domestic violence will be used as a mitigating factor in the consideration to pursue the action.
- The BHA will not discriminate against victims of domestic violence in tenant selection decisions for its assisted housing programs.
- The present policies of the BHA do not prohibit or limit a resident's right to summon police or other emergency assistance in response to domestic violence.
- The BHA is ready to assist victims of domestic violence with referrals to appropriate agencies.
- The operating policies and procedures of the BHA have been amended to reflect the above.

B. Conversion to Asset Management.

The BHA is converting to an asset management mode of managing its public housing properties to be effective October 1, 2007. As mandated by Federal regulation, the asset management approach will involve project-based accounting and project-based management by means of which individual public housing developments will be managed as separate entities with revenues and costs accounted for individually. The performance of each development will be monitored separately and corrective action plans developed when performance is found wanting.

It is hoped that asset management will enable the BHA to respond more quickly to problem areas and thereby allow a more meaningful response to those areas.
