ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Town of Islip Housing Authority is a public corporation authorized by state law and created by the action of the Town Board. It is government entity that is separate and distinct from state and municipal corporations of the state. Officially created on May 1, 1969, the Town of Islip Housing Authority consists of a seven member Board of Commissioners, and is financially supported by its own earnings (rents) plus an annual government subsidy and administrative fees for other HUD programs.

The first low rent housing complexes were constructed in 1975 and consisted of 100 senior citizen units in Oakdale (Ockers Gardens) and 18 family units on Tudor Lane, Bay Shore. Since 1975, the Town of Islip Housing Authority operations have quickly expanded benefiting many residents of Islip. The operation is currently responsible to varying degrees for six separate Housing and Urban Development (HUD) programs with over 1,000 occupied units housing approximately 3,000 people.

Over the last 20 years, there have been numerous changes in the way public housing has been administered. The Quality Housing and Work Responsibility Act of 1998 (QHWRA) is one of the most important recent changes, imposing the requirement of long term planning on housing authorities. In accordance with Section 511 of the Quality Housing and Work Responsibility Act of 1998, the Town of Islip Housing Authority is required to submit a 5-year and annual plan for the Public Housing and Section 8 programs. In addition to the long range goals that form the Authority's 5-year plan, QHWRA requires housing authorities to set out their policies, plans and objectives for the coming fiscal year in 17 of the most critical areas of their operations.

Because of the Town of Islip Housing Authority's continued commitment to efficient and effective administration of affordable housing, the Authority was pleased to engage in QHWRA planning. The Authority considers it a continuation of a process that has been used locally and which is deemed essential and urgent for the transformation of public housing into a program that will advance residents and communities into the 21st Century.

Many of the changes reflected in the QHWRA plans and attachments are responses to congressional mandates. Other changes that are being proposed as local options are designed to encourage families in their own search for self-sufficiency and to maintain an overall commitment to the local communities and government entities of seamless integration within residential neighborhoods.

The Town of Islip Housing Authority considers the planning process under QHWRA a continuation of an ongoing and successful effort to identify needs in the community and to respond effectively to these needs.

The Authority worked closely with local government and community development leaders in designing previous plans and actually garnering the resources to implement these earlier plans. The Authority will continue to work closely with the Town of Islip and its community development partners to refine these plans and to implement the plans as they are approved.

II. Public Housing 5-Year and Annual Plan

 - a. The Annual Plan provides details about the agency's immediate operations, program participants, programs and services, and residents' concerns and needs for the upcoming fiscal year
- 3. What will they do?
 - a. BOTH planning mechanisms require agencies to examine their existing operations, needs and inter-agency relationships, and to design long-range and short range strategies to address those needs.

Issues and Comments

Town of Islip Housing Authority

Resident Advisory Meeting

Melanie Beish – F&A Rich Wankel – TOIHA Evelyn Scollen – Allyn P. Robinson Village Jean Mendez – Penataquit Village Valentina Fischer – Tudor Lane Lillian Hopke – Ockers Gardens

- Welcome and Introductions
- 2. Overview of Plan and its importance to residents, as well as importance of advisory process
- 3. General Issues comments and questions

"What is this plan really all about?"

"Will each TOIHA community be able to have specific problems addressed within their developments?"

Too many stray/wild cats, unclean dogs and wild birds – need to put something in Administration and Occupancy Plans about this – maybe a warning and fine system.

Need to have tenants go to tenant boards to register their complaints – the HA is there to help, but needs to know about the problems – need to encourage residents to use tenant boards more.

The community rooms are underutilized – and some of the community room bathrooms are always closed.

The access to the community rooms is at times not available.

4. Safety and Security Issues – comments and questions

"Do we even have security?" - Yes, the Town of Islip Public Safety Department patrols the buildings.

All felt that there was low crime.

Tudor Lane was not aware of the patrols – need to be more visible in that neighborhood.

Parking lots on Suffolk Avenue are a problem – lots of loitering.

Tudor Lane does not have any alarm response system - unlike the 3 elderly complexes. This could be looked to as a safety improvement within the Plan.

There are muggings at Allyn Robinson at the back of the grocery store. Poor lighting and low human traffic is an issue here.

Many residents in all complexes are afraid of laundry room muggings. Can a better safety system here be put into place?

People also come from outside the housing community to use the laundry rooms. The residents feel this is not only wrong, but also dangerous.

At Tudor Lane, there are minor incidents of arguments between neighbors, but there are disruptive fights and arguments between "loud teenagers' from 9-11:30 PM.

The wooded area around Tudor Lane has become a place for truck drivers to stop and rest over night. This needs to be addressed as a safety issue.

There is sufficient lighting in all of the developments.

5. Service and Self-Sufficiency Issues – comments and questions

There doesn't appear to be a large enough interest in the lunch programs.

All liked the idea of the development of a publication or booklet to highlight core service programs available to all residents – to enable the TOIHA to become a service-rich environment.

Cleaning services were identified as a need in the elderly communities.

Information regarding home health aids is also needed.

HEAP service – could it be expanded?

6. Next Steps and Meeting Conclusion
