10. Additional Information

[24 CFR Part 903.7 9 (r)]

Describe the following, as well as any additional information requested by HUD.

(a) Progress in Meeting Mission and Goals

Goal 1: **Reduce THA's financial dependence on HUD public housing subsidy by 30%.**

Progress: *The Authority has assembled several tools that are geared towards generating supplemental revenues to position in minimizing dependency on HUD. Recently, the Authority acquired Osborne landing, a 43 unit development with the potential for market rate rental returns. The Authority has also retained NAI of Tampa Bay as broker for acquisition of multifamily properties with 150 – 250 units in range. The Authority is looking into the possibility of leveraging portions of the CFP grants to allow the allocation of future dollars for use in immediate acquisition of affordable rental unit housing developments.*

Other areas of financial benefit engaged by the Authority is the positioning of THA staff to manage THA owned mixed income properties and other properties outside of THA's ownership for fee. To that extent, the Authority have successfully took over management of Gardens at South Bay in August, 2008.

The vouchering of out scattered site communities own by the Authority is another potential means of generating additional revenue in view of minimizing dependency on HUD. Several staff attended HUD SAC training on Conversion in August and September, 2008. Preliminary analysis has been completed with Finance to carry out a more detailed economic review of the benefits of conversion.

The redevelopment of Central Park, Moses White and 34th Street property is still in process and will increase the Authority's options of available sources of revenue. Central Park received a perfect score in the FHFC's 2008 TC competition but did not receive the funding. Due to lack of funding, Tempo was not funded either. The Authority is reviewing various funding options to pursue.

Goal 2: **Increase affordable housing rental portfolio by 20%.**

Progress: *The Housing Authority is currently reviewing its portfolio to determine any potential benefits arising from maximizing existing zoning for additional affordable housing development. With respect to acquisition, the Authority has formed an affordable housing acquisition committee that will work to identify developments and acquisition opportunities throughout Hillsborough County. Currently, the Authority is engaged with NAI, a commercial real estate service company for the acquisition of existing developments utilizing RHF grants. This effort will indeed increase our supply of affordable housing units to respond to the high housing demands and needs in the City of Tampa. The completion of rental units with its Belmont Heights HOPE VI project has contributed about 825, mixed-income housing units. The completion of its Riverview*

Terrace HOPE VI project resulted in 250 units of affordable housing. The THA has completed the sale of 94 obsolete and dilapidated units in North Boulevard Homes to Florida DOT. The deal netted in excess of \$2.3 million which was set aside in a separate account to be used for the replacement of these units or to leverage additional units that were lost. The completion of the development of the Gardens at South Bay gave forth 216 units of 90% are affordable. The land transfer between the School Board of Hillsborough County and THA initiated to replace Rembrandt Apartments. Additionally, THA has completed the acquisition and renovation of a 73 bed assisted living facility, Palm Terrace which is now occupied.

Goal 3: Increase affordable homeownership opportunities by 250 additional units.

Progress: *As part of this focus, the Authority has combined all of its homeownership efforts into one department, the Center for Affordable Homeownership, which will provide comprehensive homeownership education and the rehabilitation and development of infill housing. The goal is to empower potential homeowners through education of the pre-purchase, mortgage, home maintenance, post-purchase and foreclosure prevention processes. Additionally, this department will work with the City, County and other local non-profit entities in partnership to increase the inventory of affordable, single-family homeownership opportunities in Tampa. The mission of the Center will be expanded to include the development and sale of affordable home ownership opportunities.*

The homeownership units scheduled for Belmont Heights Estate is being completed in phases. Meanwhile a total of 11 of the 36 single family homes, for sale units in the Belmont Heights HOPE VI development have been completed. The remaining units are scheduled to be completed in phases I and II within the next year. At Riverview HOPE VI development, 94 single family for sale have been completed.

The Authority is additionally working with local authorities to develop/acquire additional units on the market for sale to income eligible persons. The land that Moses White Estates once occupied is also under consideration by THA for either multi-family rental or single family homeownership development. Some of the local agency partners include the City, County, banks, West Tampa CDC, GTE Credit Union and Fannie Mae. The two HOPE VI Projects, namely Belmont Heights Estate and the Oaks at Riverview were completed with home ownership opportunities as part of the redevelopment strategy.

The Authority intends to target at least, 100 public housing and Section 8 families that are between 60 – 80% of AMI for affordable home buying opportunities. The necessary requisite to achieve the Authority's mandate is in place. Between 2007 and 2008, a total of 212 families were provided relative services and information to assist in the families in homeownership opportunities. The mechanism in place will also provide home ownership education to stimulate interest and opportunity for families between 80% and 140% of AMI. The Authority is projecting at least 150 families targeted in this group will be reached. Over 118 families of the targeted group have already gone through the

established process for home buying opportunities. Inclusively, the Center for Affordable Homeownership will provide home buyer counseling and training to the targeted 250 families annually. The center provides homeownership education, home buyer counseling/training, home maintenance education and foreclosure prevention education.

Goal 4: Grow our Housing Choice Voucher Program by 1000 additional units.

Progress: *The Authority has successfully increased its pool of participating landlords in excess of our stated goal of 5%. The Authority received additional 105 HUD VASH Vouchers thereby increasing the number of existing vouchers in place. Additionally, the Section 8 program has continued to maximize financial resources by reducing administrative costs. The Section 8 Homeownership Voucher Program will further increase affordable housing for our families through homeownership. The Authority is working in conjunction with Fannie Mae, LISC and the local lending community to develop a mortgage product to service this innovative program. The Housing Authority has closed on a total of 20 homes for its first time home buyers using the Housing Choice Voucher.*

Since the beginning of this five year plan, THA has more than doubled the number of vouchers handled under the Section 8 program (from 2200 to 4500). A new organizational structure and increased staffing have been put in place to handle this volume. Voucher utilization has averaged 100% for the last 2 years. A new file system has been instituted, and the restructuring of the lobby improvements have separated landlord and resident intake functions. The Department works closely with the Finance Department to ensure that the program is neither under- or over-leased at the end of each fiscal year. The program has achieved high performer status.

Goal 5: Increase effectiveness and comprehensiveness of supportive services for Clients of Public and Assisted Housing.

Progress: *The Authority believes the provision of supportive services will give opportunity and effectuate residents' self-sufficiency. To that extent, the Authority is vigorously applying for federal and other grants as one of the means to assure these services are maintain in place. The Authority has been successful in receiving these grants in the past. There are over \$2.4m in pending grant applications by the Authority. Other area of interest being sought by the Authority to accomplish this goal is to create a self-renewing system to fund basic level of resident services and programs. Recently, the Authority's Department of Program and Property Services that oversees this program submitted the HUD FY2008 grant application in the amount of \$682,560 for Self – Sufficiency Program Service Coordinators. This grant will assist families of LIPH and S8 to increase earned income potential and self-sufficiency. As part of this effort of providing supportive services for LIPH and S8 residents, the Authority is also seeking ways to accommodate homeless persons through counseling and housing program.*

The establishment of resident point of entry is viewed as a means of effective communication between the Authority and new residents. A Service Coordinator will be

put in place to coordinate the process and monitor progress at recertification. Under this exercise, the Authority intends to enroll at least 20% of new residents annually and educate 100% of new residents and existing residents on their obligations in exchange for receiving housing assistance. The Authority has purchased a software system to aid in the automation of the aforementioned services including base-line services FSS, Neighborhood Networks, Ross, GED, A+ Certifications, Childcare Family and Elderly Needs Assessment. The services for the seniors are aimed at providing them with social, cultural and recreational outlets. The authority has completed residents' survey assessments to improve on the services being provided. The survey is being conducted at the rate of 60 residents per month.

The final objective established by the Authority is to provide youth with positive social, recreational and academic outlets. A need survey for the targeted group has been developed and the implementation initiated. The program design will commence as soon as the survey activity is completed. Meanwhile, the Authority has received various levels of funding relative to Florida Network of Youth and Family Services for therapeutic and case management services, group counseling, school and home visits, outreach, screenings and assessment for troubled youth and associated families in the amount of \$313,581 and Delinquency Prevention Program Department of Juvenile Justice for after school program kids dealing with risks such as substance abuse and behavior for \$45,668. Through this program, residents will attain long term personal success in spite of the presence of multiple risk factors.

Goal 6: Research and develop inner city boarding school concept and program

Progress: *The Authority is in the process of developing work plans that will guide and track the progress under this goal. Meanwhile, the Authority hired an architectural firm early this year to review various options of programmatic concepts through comparative findings of existing facilities. The next step is to establish exploratory funding for feasibility study, conceptual design, research, preliminary program development and selection of business partners.*

Goal 7: Create, Promote, and maintain a safe and secure environment for staff and residents

Progress: *The Authority has established various options of safety mechanism relative to unforeseen weather condition, child safety and site/development safety. Hurricane preparedness and emergency plan have been established. Staff has begun to engage with outreach workers at USF for safety programs designed for girls ages 12 to 24. In addition, staff is continuously meeting with TPD and residents in order to establish a Neighborhood Crime Watch in various communities.*

Goal 8: Aggressively deploy technology, systems and modern facilities required to improve efficiencies, quality and communications through all levels of the organization.

Progress: *The Authority has set up core committee members consisting of the COO and HR Director to formulate program geared towards the achievement of the goal. As*

part of the structure, a weekly executive staff meeting is held to encourage positive communication and ascertain executive level priorities are effectively monitored.

To effectuate efficiency of workflow and retention of information, the Authority has implemented document imaging and computerized automated records retention program agency-wide. The necessary hardware are being installed and configured including the testing of the server part of the system. Basic training required for equipment utilization is still ongoing.

The Authority's MIS staff is constantly working with departments to identify information specific to their area of responsibility and publishing. The web site is being actively promoted and expounded to accommodate various levels usage and reportage. Additionally, a process to establishing a full deployment of e-procurement program authority-wide is being formulated. This will be a vehicle of tremendous advantage as we go paperless in sharing information relative to our procurement process. Staff is constantly reviewing various options technology to increase work efficiency and productivity. The implementation of new modules or framework in our operating software program – Yardi system is a progressive step in achieving our automated business mandate. The recruitment of new staff is being enhanced to provide access for online application and review process. Further research is being conducted for various modules of applicability.

The Authority is establishing electronic library to serve as a comprehensive resource of housing related information, services and resources. This process will be designed to create master list of documents required for a comprehensive library. The system is currently being tested for permanent placement

Goal 9: Retain, recruit, grow well qualified motivated workforce of competent staff continuous education and training.

It is now a policy requirement that all vacant positions are posted in-house first to encourage internal advancement opportunities for highly motivated and qualified staff. The tracking system is now in place and is being reflected in the monthly Board Report.*

Staff moral is a critical element in the retention of qualified employees. The Authority has set up a program of motivational activities and employee recognition for all

categories of staff levels. Events such as Employee Appreciation Day, Wellness Program, Picnic, Christmas Party, etc., are being held on a scheduled basis to achieve the stated goal. Employees are rewarded for good performance on yearly review basis. The Authority has established a standardized structure of performance evaluation to provide timely feedback to staff on performance satisfaction.

As part of the objective to achieve the state goal, the Authority hired a consultant to review its salary structure to ascertain it is fair and commensurate with job responsibility and industry standards. Regular cost of living adjustments and provision for performance merit pay opportunities are part of the overall are structured to foster a sense of confidence in the employees. The Authority reviews the comparable industry salary data monthly in order to track and note where adjustments are likely to be made.

Goal 10: Advocate for the preservation and sufficient funding of affordable housing policy on the local and national level.

Progress: *The Authority is undergoing a strategic business plan development process which will provide work plans to implement initiatives under this goal. The Authority has plans in place to scheduling the President and CEO for regular meetings with local and federal legislators. This will intuitively position him to opine on housing policy measures and provide productive information to legislative bodies. Senior management participates on numerous boards of local and national organizations which give THA exposure and great visibility locally and throughout the affordable housing industry.  - Adoption of site-based waiting list would not violate any court order or settlement agreement or be inconsistent with a pending complaint brought by HUD;
 - The PHA shall take reasonable measures to assure that such waiting list is consistent with affirmatively furthering fair housing;
 - The PHA provides for review of its site-based waiting list policy to determine if it is consistent with civil rights laws and certifications, as specified in 24 CFR part 903.7(c)(1).
