Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

The demand for subsidized affordable housing continues to outgrow the supply in Montgomery County. The Housing Authority administers approximately 321 HCV with the utilization rate of 97%.

The current active waiting list has approximately 200 families from the 2004 opening of the list. November 2008 MCHA reopened the waiting families for one day and received approximately 350 new applicants. This list is still in the data entry process.

An average of 30 families attempt to apply for Section 8 assistance every week and are turned away. In 2006 Eight percent of all families in Montgomery County live on income below the poverty line. Four percent do not have telephone service or accessible transportation.

The National Low income Housing Coalition's annual report "Out of Reach: 2007" details the affordability of the local rental housing market for Low income families. According to this report, there is not a single jurisdiction in the country where a person working 40 hours a week, 52 weeks a year at the prevailing minimum wage can afford a one bedroom apartment at the established FMR. The total number of subsidized housing units in the counts meets the needs of less than 30% of these families.

Over the past few years MCHA has experienced low utilization due to constant turnover, portability (Families taking their voucher to another HA) and poor lease up due to family negative rental history or Criminal history.

Income: In 2006 almost 25,000 households (18.2%) lived on \$24,999 or less. Montgomery County United Way 2007 Priority Needs Assessment, Montgomery County School districts aggregately have seen a 34% increase in the number of children living at or close to poverty as compared to the 7% increase the same period. 37% or 27,628 Public School children were classified as economically disadvantaged in 2006 along with 2,249 (6.3%) of senior adults living in Montgomery.

9.0

Montgomery County has a large population of extremely low Disabled\elderly population. Census data shows a 77% increase in the number of persons diagnosed with mental disabilities between 2003-2006 to 16,012. 2006 estimates 2832 disabled men and 4056 disabled women live in poverty in Montgomery. Approximately 26.6% of Montgomery County's adult population has mental disorder with 6% who are seriously mentally ill.

Montgomery County is facing a slow increase in homeless youth in Texas. 1,444 unduplicated youth participated in counseling services by MCYS in 2005. 85 request for family reunification counseling for runaway youth, 469 children have been placed in legal custody of Texas Department of Protective Services.

Homeless Population: The Montgomery County Homeless Coalition estimates there are approximately 400 homeless persons in Montgomery County on any given night. The greatest gap and unmet need of homeless individuals is for transition and permanent supportive housing assistance.

Housing Supply: Montgomery County grew dramatically beginning in 1980 and units built after that year composed of 64.3% of the total housing stock. Montgomery County has a HUD 50075 (1/2008) built market and tax credit unit due the influx of population and a high rental market.
