Check if the PHA proposes to use any portion of its Capital Fund Program (CFP)/Replacement Housing Factor (RHF) to repay debt incurred to finance capital improvements.

Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

The housing needs data below was obtained from the 2008 approved Consolidated Plan. The impact of the factors below range from 1 (no impact) to 5 (severe impact).

	-	maximize the number of affordable units within our current resources by:
		Employing effective maintenance and management policies to minimize the number of public housing units off-line Reducing turnover time for vacated public housing units
		Reducing time to renovate public housing units
	(d)	Seeking replacement of public housing units lost to the inventory through mixed finance development
		Seeking replacement of public housing units lost to the inventory through Housing Choice Voucher replacement housing resources
		Maintaining or increasing Housing Choice Voucher lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
		Undertaking measure to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
		Maintaining or increasing Housing Choice Voucher lease-up rates by marketing the programs to owners, particularly those outside of areas of minority and poverty concentration
	(i)	Maintaining or increasing Housing Choice Voucher lease-up rates by effectively screening Housing Choice Voucher applicants to
		increase owner acceptance of program Participating in the Consolidated Plan development process to ensure coordination with broader community strategies
	(k)	Secure site approval from the Department of Housing and Urban Development to enable the Authority to construct the Orcutt
		Townhomes III public housing development. This thirty (30) unit development will be undertaken on three sites in the Southeast area,
		two of which were part of the former Orcutt Homes Public Housing community which was demolished following HUD approval of this action. It is expected that construction on this housing will begin in early 2010 (with completion in approximately 10 months) following
		HUD approval of the site and the mixed-financing package of capital improvements funding and low income housing tax credits.
		The Orcutt III development will be similar in style to the very attractive Orcutt II public housing townhomes development constructed
		and occupied in 2006. This complex was also built on the site of the former Orcutt Homes community. The completion of Orcutt III will
		bring the total number of new public housing units constructed on the former Orcutt Homes site to one hundred twenty (120).
9.1		The Authority will continue to review possible sites for new public housing units and concomitantly allocate a substantial portion (up to
		\$1.0 million) of its capital improvements program funding each year to serve as a catalyst for new future mixed-finance developments constructed with a combination of capital grant monies and equity raised from the sale of low income housing tax credits.
		constructed with a comonation of capital grant momes and equity faised from the sale of low income nousing tax creatis.
	(m)	The focus of the Capital Improvements program in 2009 will be on the utilization of recently received capital funding through the
		American Recovery and Reinvestment Act (ARRA) in the Marshall Courts Public Housing community. Much needed exterior and interior improvements in this fifty plus (50+) year old neighborhood will be planned, designed and placed under contract within ARRA
		funding timeframes (within 12 months from ARRA contract execution), with such work to begin immediately thereafter. Improvements
		will include new roofs, windows and exterior surfaces as well as interior work to be determined during the planning and design process.
	(n)	Other – Utilizing Project Based Vouchers
