#### DECONCENTRATION AND INCOME TARGETING

It is the objective of the PHA to achieve and maintain a resident community whose incomes reflect a broad range.

The methods through which the PHA intends to accomplish this objective is as follows: Affirmative marketing and outreach programs. The community shall be made aware of the availability of the housing assistance programs. The PHA will initiate a publicity campaign through announcements to news media and other media forms as determined necessary. The PHA shall also send notices to be posted in social service agency offices and advocacy groups for the elder and disabled populations.

The establishment of a wait list preference for applicants with an adult family member, who are employed,

enrolled in school, elderly or disabled.

Deconcentration Standards:

Income Mixing: To avoid concentration of very low income families and to

offer incentives to families, the NHA will skip families on the Wait list

to achieve income mix goals, as follows:

PHA 40% of families do not exceed 30% of AMI

60% of families do not exceed 80% of AMI

Income Targeting: NHA will reserve a minimum of 40% of its units for new

admissions for families whose income does not exceed 30% of AMI. (This goal can be offset by an increase in the rental assistance admissions but no more than 10% of the remaining admissions can have up to 80% of

AMI>) Income targeting

RA NHA will reserve a minimum of 75% of its new admissions for families

whose income does not exceed 30% of AMI.

PH/RA: A preference will be given to families who agree to execute a

Family Self Sufficiency Contract.

PHA: The NHA has set a goal that 50% of its families are working

families.
