Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

There are some issues of affordability in our housing market. A percentage of the units available are above the area's Fair Market Rent and Payment Standard. This compounds the area's need for adequate supply of quality units. A large portion of the housing stock is beyond 30 years old and need of repair. This limits the amount of units that are available and/or affordable.

9.0

10.0

This has presented slow lease-up for the agency's Section 8 Program and has provided a large waiting list for its' Section 8 and Public Housing Waiting Lists.

The diversity for the agency's programs and waiting list are reasonable to the most recent census study for the area being served. However, even though the Public Housing Program provides adequate amount of housing for disabled families, the amount of available units for families with disabilities in the private market are more limited by comparison.

Finally, the agency consistently meets the lease-up targets of 75% of Section 8 and 40% Public Housing initial move-ins are housed at 30% AMI or below. This corresponds with the income needs of the area's Consolidated Plan.

Strategy for Addressing Housing Needs. Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year. Note: Small, Section 8 only, and High Performing PHAs complete only for Annual Plan submission with the 5-Year Plan.

9.1 To address the housing availability need, we will consider increasing our current Payment
 Standards which are 90% of the FMR. This would allow us to maintain current landlords and provide potential housing that require higher rents than the current Payment Standards.

To address the need for housing for disabled families, the agency will actively search for local agencies and landlords to who would be able to assist in modifying some of the existing housing stock to meet the needs of disabled families.

Additional Information. Describe the following, as well as any additional information HUD has requested.

(a) Progress in Meeting Mission and Goals. Provide a brief statement of the PHA's progress in meeting the mission and goals described in the 5-Year Plan.

The agency is still working to expand its' supply of assisted housing. However, with additional budget cuts and the strain on the current housing market, it has made this goal more difficult to attain. Currently, the agency is in negotiations to manage brand new mixed finance development, which contains 216 units

The agency is on track to reduce its' goal of reducing the Public Housing vacancy turnaround time by 20%.

The agency has recently achieved its goal of attaining 98% ABA utilization of its' Section 8 Program. Reaching this goal has also been a benefit of reaching its' goal of increasing assisted housing choices, by reaching additional landlords to participate in the Section 8 Program.

(b) Significant Amendment and Substantial Deviation/Modification. Provide the PHA's definition of "significant amendment" and "substantial deviation/modification"

No significant change or modification has been made to the Agency Plan.

The residents of the hi-rise buildings discussed items they would like to see Capital Fund dollars used for during the March 2, 2011 RAB meeting.

Riverside Apartments:

- 1. Carpet and tile replaced
- 2. Railings along the North sidewalk of the building
- 3. Replace siding

Norman Manor Apartments:

- 1. Tile replaced in units
- 2. Some units on the West end of the 4th and 5th floors need bedroom and bathroom doors replaced (These units were not done when the building remodel was done)
- 3. Tenants would like some form of an activity area (horseshoe pit etc.) located on the property West of the new garage.

Martin Boots Apartments:

- 1. Replace furniture in the front lobby and lounge (Old Business being put on hold at this time)
- 2. Exterior doors at the North and South end of the building need replaced
- 3. HVAC units in the apartments let air in around the unit on the West side of the building; check into a solution.
- 4. Siding needs checked for cleaning or replacement

All Buildings:

- 1. Check pricing and get quotes on installing Digital TV antennas for the hi-rises due to the lack of funds to install dish/cable television.
- 2. Check pricing on installing cameras in the elevators due to vandalism.
- 3. Hi-rises need new awnings; compare cost of replacing awnings against cost of building porch structures from the building to the curbs.
- 4. Need to finish running electricity to the gazebos already in place, starting Martin Boots gazebo by April.
- 5. Get lists together from managers for all units due to be painted this fiscal year.

I have also received a list of additional items from maintenance staff and will receive feedback from management on their items of concern for each building. Executive Staff, Management and I will then review these items and list them from highest priority to lowest priority depending on the safety and security of our tenants and the Capital Fund budgets.
