ii. Executive Summary of the Annual PHA Plan
[24 CFR Part 903.7 9 (r)]

- Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.
- 1. The ACOP and Lease have been revised to comply with the deconcentration and income mix; thereby encouraging higher income families in the developments that are designated "low-income" and low-income families in the developments designated "high-income". The revised ACOP also permits police officers to reside in Public Housing Developments to provide additional security. Although the PHA has provided incentives for low-income and very low-income families in the PHA's jurisdiction (which includes six counties), the emphasis will continue to house families in these income levels.
- 2. The PHA has established ceiling rents and analyzed comparable market rents to determine Flat Rents. The Flat Rents will not benefit the residents as much as the existing Ceiling Rents
- 3. The PHA has a resident on the Board of Commissioners. Board members are appointed by the Mayor and are not elected. The Mayor will continue to appoint commissioners. In addition, the Housing Authority has a Resident Advisory Board that is involved in the development of the Agency Plans.
- 4. The PHA is providing decent, safe and sanitary housing through the effective and efficient utilization of the Capital Funds. The

- PHA will continue utilization of a pest control contractor to reduce and eliminate pests, including cockroaches.
- 5. The PHA proposes to demolish 86 units in two developments since there is a lack of need and to reduce unit density and provide better security.
- 6. The PHA does not have a HUD funded Drug Elimination Program Grant. Nevertheless, the PHA is working to promote crime prevention through a partnership with law enforcement agencies.
- 7. The PHA has developed a PHA-wide Pet Policy that had input from the Resident Advisory Board.
- 8. The Resident Advisory Board consists of ten members that include elderly, women and young head of households. They represent the sixteen sites of the developments.

For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

D. Ot	her Information Required by HUD
Use this	s section to provide any additional information requested by HUD.
Defin	ition of "Substantial Deviation" and/or "Significant Amendment or fication."

The Dyersburg Housing Authority will consider a "Substantial Deviation" to be a change in the Mission, Goals, and Objectives of the PHA Plans that is duly determined by the Board of Commissioners and the Resident Advisory Board to be a deviation from the latest approved PHA Plans. If the Board of Commissioners and the Resident Advisory Board consider the change(s) in the Mission, Goals, and Objectives to be substantial, in their determination, the Plans will be submitted to HUD for review and approval.

In addition, if there is a change in funding of greater than 20 percent of the Operating Budget and/or the Comprehensive Grant Program, this will be considered an amendment/modification to the Plans, except for emergencies that are beyond the control of the PHA. If the item/activity is included in the 5-yearComprehensive Grant Program, it will not be considered a significant change although the cost may exceed the 20 percent threshold; therefore, not requiring HUD review and approval.

DECONCENTRATION POLICY:

The objective of the De-concentration Rule for public housing units is to ensure that families are housed in a manner that will prevent concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the PHA is to house no less than 40% of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also, the PHA will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the PHA does not concentrate families with higher income levels, it is the goal of the PHA not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The PHA will track the status of family income, by development, on a monthly basis by utilizing income date

maintained by the PHA. To accomplish the de-concentration goals, the PHA will take the following actions:

- 1. At the beginning of each PHA fiscal year, the PHA will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous PHA fiscal year.
- 2. To accomplish the goals of:
- ❖ Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income; and
- Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, in accordance with the incentives reflected in Section II,6, Resident Selection, of the PHA's ACOP.
