ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Quality Housing and Work Responsibilities Act of 1998 (QHWRA) requires all public housing authorities to submit a Comprehensive Agency Plan to the U.S. Department of Housing and Urban Development (HUD), at least 75 days prior to the beginning of their Fiscal Year 2000, which for the Rockwood Housing Authority is July 1, 2000.

The Rockwood Housing Authority Comprehensive Agency Plan contained herein, along with referenced documents on file at the Rockwood Housing Authority Main Office, include the submission requirements as outlined in the Final Rule published in the October 21, 1999, Federal Register and PIH Notice 99-51, issued December 14, 1999.

The planning process for this critical document began in December 1999. Many interested residents were appointed to the newly created Resident Advisory Board. They gave vital input to this plan. The Board of Commissioners, Resident Advisory Board, staff, and the consultant held a retreat on December 18, 1999. This retreat revised and/or established the mission statement and the five-year goals and objectives that are outlined in this plan.

The housing needs of the low and moderate-income families of Roane County were studied. There was a need for more public housing, especially for those families having incomes of 30% or less of the median family income.

RHA will be financially stable, if the federal funding levels are maintained. However, there is an outlook for much decreased federal funds. Therefore, RHA will look towards non-HUD funding sources and local partnerships.

RHA will be implementing a new lease and Admissions and Continued Occupancy Policy in order to comply with the QHWRA. RHA will also establish a plan for the deconcentration of poverty and income mixing in its family developments. The deconcentration plan utilizes flat and ceiling rents as an incentive for working families to increase the income in their developments.

RHA is not required to complete many sections of this electronic plan template. This is because RHA is less than 250 units, a high performing housing authority, and it does not administer a Section 8 program.

The plan includes a capital funding program. Assuming stable funding levels from HUD, RHA hopes to be able to modernize all of its apartments over the next five years.

ATTACHMENT A:

ADMISSION POLICY FOR DECONCENTRATION

The United States Congress enacted the Quality Housing and Work Responsibility Act (QHWRA) on October 21, 1998. In accordance with this act, the Rockwood Housing Authority (RHA) proposes an admissions policy designed to provide for the deconcentration of poverty and income mixing. Bringing higher income residents into lower income family developments and bringing lower income residents into higher income family developments will accomplish this. The Admissions and Continued Occupancy Policy (ACOP) of the RHA has been modified to achieve this goal and incorporates this policy by reference.

Selection of Very Low Income Families:

The new act also requires RHA to ensure that at least 40 percent of all families admitted into public housing have incomes that do not exceed 30 percent of the area median. At the present time, 90 percent of the public housing applicants have incomes at 30 percent or less of the median. Since the number of very-low income applicants is high, the RHA does not feel it is necessary to have a special plan. However, the 40 percent requirement for all new public housing admissions will be monitored on a quarterly basis to ensure compliance.

Existing Conditions:

The existing conditions reflect that most of RHA'S higher income families live in Evans Heights (TN018-02), and most of the lower income families live in Evans Heights (TN018-01).

DECONCENTRATION POLICY

The existing conditions shown above present a considerable challenge to change housing patterns that have built-up over many years. The RHA will offer the following incentives to help reverse these trends:

1. Once the current modernization for both sites of Evans Heights is completed, the first priority of RHA's modernization funds will be spent on Evans Heights (TN018-01), as these are the authority's oldest units. The RHA will take measures to remodel the interiors, make the site improvements so the housing is aesthetically pleasing, and improve the exterior lighting to enhance the perception of safety.
2. Incentives for new applicants will be provided through a working family preference to be proposed in the new ACOP. The RHA will also use an income range preference to select applicants with higher incomes.
3. The RHA will also increase its affirmative marketing for higher income applicants.
4. Incentive transfers will be offered to working families to move into Evans Heights (TN018-01). No incentive transfers will be allowed into Evans Heights (TN018-02).
5. Finally, the most powerful incentive will be the utilization of the new rent structures **required** by the QHWRA. This will be an incentive to both new applicants and existing residents. The definitions of these rents are as follows:
 - a. **FLAT RENTS:** The law requires the RHA to establish a flat rent for each public housing unit. The flat rent must be based on the value of the unit and designed so that it does not discourage families working towards economic self-sufficiency. A flat rent will be established for each site and

unit type, but will not be charged if there is a lower ceiling rent applicable for the unit.

- b. **CEILING RENTS:** The RHA proposes to establish ceiling rents for family housing at a reasonable rate but not less than 75 percent of the monthly cost to operate the housing. Units designated for elderly and handicapped must have rents set at 100 percent of the monthly cost to operate the units.
- c. **FAMILY CHOICE OF RENT AMOUNT:** each year, each public housing family may choose to have their rent based on the formula method or a flat amount as established by the RHA. For families electing the flat rent, the RHA will be required to reexamine the family's income at least once every three years.

The above definitions of rent are used to derive the proposed rent structure as shown in Exhibit B. The new ceiling rents will be used to entice working families to move to the lower income family developments. The flat rents with no ceiling rents will entice the lower income families to live in the higher income family sites.

CONCLUSION:

Over time, and for many reasons, lower income families have become concentrated in Evans Heights (TN018-01). The RHA needs to provide mixed-income developments. This deconcentration policy and its incentives will begin to provide more socially and income balanced developments.
