ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The following housing issues have been identified by the City of East Chicago:

- Among elderly minority households with incomes below 50% of median, Hispanics were most likely to experience housing problems and were less likely to be homeowners.
- Among small family households with incomes below 50% of the median, Hispanic renter households were most likely to experience substandard housing.
- Among large family households with incomes below 50% of median, housing problems were extremely high for minority and non-minority households alike with overcrowding the most likely problem. Homeownership among these households was also exceptionally low.
- While very low income renter households consisting of single persons and non-related persons living together accounted for one-fifth of all very low income households and experienced significant housing problems and degrees of cost-burden, there is essentially no federal, state or local programs to assist these households.
- Extremely low income non-elderly homeowners lived in substandard housing and were cost burdened.
- With only a small segment of low income large family renter households experiencing cost burden, the predominant housing problem is more than likely to be overcrowding among this household type.
- The waiting list for public housing units include households who are in need of subsidized, affordable housing.
- There exists an even greater need for rental assistance than public housing in East Chicago.

To assist the City in meeting its housing needs, the Housing Authority of the City of East City has included the following initiatives and policy changes in this annual plan:

1. Shortage of affordable housing for all eligible populations

Maximize the number of affordable units available to the PHA within its current resources by:

- a. Employ effective maintenance and management policies to minimize the number of public housing units off-line
 - Reduce turnover time for vacated public housing units
 - Reduce time to renovate public housing units
 - Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
 - Participate in the Consolidated Plan development process to ensure coordination with broader community strategies

2. Increase the number of affordable housing units by:

- Apply for additional section 8 units should they become available

3. Assisting families at or below 30% and 50% of median by:

Adopt rent policies to support and encourage work

4. Assisting Elderly by:

Apply for special-purpose vouchers targeted to the elderly, should they become available

5. Assisting Families with Disabilities by:

Carry out the modifications needed in public housing based on the section 504 Needs

Assessment for Public Housing

Affirmatively market to local non-profit agencies that assist families with disabilities

6. Assisting Races or ethnicities with disproportionate housing needs by:

Increasing awareness of PHA resources among families of races and ethnicities with disproportionate needs by affirmatively market to races/ethnicities shown to have disproportionate housing needs

7. Conducting activities to affirmatively further fair housing by:

Counsel section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units

Market the section 8 program to owners outside of areas of poverty /minority concentrations

Factors influencing the Housing Authority's selection of the strategies are:

- Funding constraints
- Staffing constraints
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the housing authority
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board

The Housing Authority has revised its Policies Governing Eligibility, Selection, and Admissions to comply with the Quality Housing and Work Responsibility Act of 1998 and to specifically accomplish the following goals:

- Deconcentration of Poverty and Income-Mixing in Public Housing and Section 8

- Intensified screening and resident selection criteria to reduce crime and to promote self-sufficiency among the public and Section 8 residents
 - Promotion of choice in rental payment to encourage higher income residents
- Asset management activities during Year 1 of the Agency Plan are:
- Capital improvements in developments IN 1, 2, 5, 6, 7, and 9.
 - The development of a Section 8 voucher homeownership program

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

Source: 1995-1999, Comprehensive Housing Affordability Strategy (CHAS) for the City of East Chicago, IN

In 1993, the U.S. Department of Housing and Urban Development provided modified data from the 1990 U. S. Census for the City of East Chicago. This data, originally included in the Comprehensive Housing Affordability Strategy (CHAS) for 1993-1999, clearly identifies those residents of the City that were experiencing problems with housing. Identifiable problems included cost burden, which is paying in excess of 30% of income for housing costs; lack of a complete kitchen; lack of complete plumbing; or overcrowding (1.01 or more persons per room). Based on this information, these households are ill-housed and in need of some form of assistance to alleviate their housing problems.

The CHAS also includes a summary of the number of households in each income category by tenure (owner or renter) and household type (large family, small family, etc.) and the percent of such households that had a housing problem. The needs of various households, by household type within each income category were also described. The extent to which the households within each group were cost-burdened and severely cost-burdened, and/or living in substandard housing was examined. And, the extent to which such problems impacted racial and ethnic groups was reviewed.

Categories Of Persons Affected

Very Low Income

Very low income households are defined as those with incomes of less than 50% of the area median income. In East Chicago in 1990, very low income families were those with incomes up to \$18,461 for a family of four. Within this group were also extremely low income households whose incomes were less than 30% of median (that is, less than \$11,076).

There were 5,072 very low income households representing 42% of all households in East Chicago in 1990. Renters outnumbered owners nearly 3 to 1 with renter incomes of 0-30% outnumbering renter incomes of 31% - 50% by more than 2 to 1. In other words, the greatest

percentage of households fell into the lowest income category in 1990. A discussion of each household type and its circumstances follows.

Very Low Income Elderly

Very low income elderly households accounted for 21% of all very low income renter households and 74% of all elderly households. An elderly household is one with one or two members (family or non-family) with a head of household or spouse age 62 or older. The needs of very low income elderly households include:

The need for subsidized rental housing:

- elderly renter households were living in physically inadequate housing units and were cost burdened.
- 69% of extremely low income elderly renter households were paying more than 30% of their income on housing costs; 32% of these were paying more than 50% of their income.
- 64% of all very low income renter households reported housing problems.

The need for cash assistance to support housing costs:

- elderly homeowners were cost-burdened and had difficulty maintaining their homes.
- 53% of all very low income elderly homeowners reported housing problems.
- 71% of all extremely low income elderly homeowners were paying more than 30% of their income on housing expenses; thus, it can be assumed that these households had scarce resources, if any, to maintain and repair their homes.

Minority households among very low income elderly renters accounted for 18% of all elderly households in the City, non-Hispanic blacks accounted for 19% and Hispanic households 17%. The rate of housing problems reported by this group was relative to non-minority households with 69% of all minority very low income elderly renter households reporting some type of housing problem. However, a distinction was made among non-Hispanic blacks at 58% and Hispanics at a significantly higher rate of 88%.

Minority elderly homeowners represented 52% of all elderly very low income homeowners with non-Hispanic black homeowners outnumbering Hispanic homeowners 65% to 37%. Within this income group, elderly homeowners composed the largest group among family types. Reported housing problems were high among this group with nearly 63% of all minority homeowners experiencing housing problems. The incidence of substandard housing was approximately the same between non-Hispanic blacks (62%) and Hispanics (66%).

Issue: Among elderly minority households with incomes below 50% of median, Hispanics were most likely to experience housing problems and were less likely to be homeowners,

Very Low Income Small Families

Very low income small family households accounted for 57% of all small family renters and 46% of all very low income renter households. Small family households are comprised of 2 to 4 related family members. Extremely low income small family renters outnumbered very low income by more than 3.5 to 1. The needs of this household group are similar to the elderly and include:

Need for subsidized rental housing:

- small family renter households were living in physically inadequate housing units and were cost-burdened.
- 68% of all extremely low income small family renter households were paying more than 30% of their income on housing costs;
- 48% were paying more than 50% of their income.
- 70% of extremely low income households reported housing problems in 1990; the rate among very low income was significantly lower at 41%.

Separate data for very low income small family homeowners were not available.

Minority households among very low income small family renters accounted for 50% of all very low income minority renter households in the City. Non-Hispanic blacks represented 51% of all very low income minority renters; Hispanic households included 49%. Housing problems among this group was relative in comparison to all very low income small family renter households with the exception of Hispanics where 77% reported housing problems.

Minority households among very low income small family homeowners accounted for 24% of this group with non-Hispanic blacks at 17% and Hispanics at 34%. Housing problems were the lowest for this very low income household size: all minority-headed households 40%, non-Hispanic blacks 39% and Hispanics 41%.

Issue: Among small family households with incomes below 50% of the median, Hispanic renter households were most likely to experience substandard housing.

Low Income Large Families

Very low income large family households accounted for only 13% of all very low income renter households but represented over 59% of all large family renter households in the City. A large family household is one with five or more related individuals living together. Extremely low income large family renters numbered 302 or 62% of all very low income large family renters. The housing assistance needs of this group were the same as for the previous groups discussed and include:

Need for subsidized rental housing:

- very low income large family rental households were living in physically inadequate housing units and were cost-burdened.
- 79% of extremely low income large family renters were paying more than 30% of their income or housing costs; 46% were spending in excess of 50% of their income.
- 90% of extremely low and 96% of very low income large family renters reported problems with their housing.

Minority large family renters accounted for 14% of all very low income renter households: 13% were non-Hispanic black households and 16% were Hispanics. Among these renters, reported housing problems were by far the highest for this income group: 92% for all minorities, 89% among non-Hispanic blacks and 96% among Hispanics. Even among all large family renter households (minority and non-minority), 93% reported housing problems.

The incidence of overcrowding among this household size was significantly higher than among all other household sizes combined: among all renters, 9% experienced housing problems versus 54% for all large family renters. For homeowners, the incidence of overcrowding was substantially less: 5% for all owners versus 8% for all large family homeowners.

Homeownership among large family households with incomes below 50% of the median was extremely low. Only 7% of all very low income large family households Citywide were homeowners in 1990; among all minority-headed households, the rate was 13%. Hispanics were five times as likely to own a home as compared to non-Hispanic blacks. However, the rate for these two groups was still substantially low at 21% and 4%, respectively. Housing problems among this group were also exceptionally high with 81% of all minority-headed large family homeowners experiencing housing problems, 53% among non-Hispanic blacks and 85% among Hispanics.

Issue: Among large family households with incomes below 50% of median, housing problems were extremely high for minority and non-minority households alike with overcrowding the most likely problem. Homeownership among these households was also exceptionally low.

Very Low All Other Renter Households

All other renter households include persons who reside together but who are not related to each other, as well as single person, non-elderly households. There were 730 such households in 1990, representing nearly 20% of all very low income renter households in East Chicago. Nearly 70% of these households had incomes less than 30% of the area median. Seventy-three percent (73%) of the extremely low income reported housing problems with their rental units. Sixty-three percent (63%) of those with incomes between 31% and 50% of median reported housing problems and 55% were cost-burdened.

Separate data for minority representation among very low income all other renter households were not available.

This group of households is not generally eligible for publicly assisted housing units unless an individual has a recognized disability. The need for another form of low cost, decent housing exists for this population segment. Single room occupancy (SRO) housing, shared housing or another alternative would be appropriate.

Issue: While very low income renter households consisting of single persons and non-related persons living together accounted for one-fifth of all very low income households and experienced significant housing problems and degrees of cost-burden, there is essentially no federal, state or local programs to assist these households.

Very Low Income All Other Owners

All very low income homeowners whose head of household is under age 65 are counted in this population segment, which accounted for 35% of all very low income homeowners. In other words, elderly homeowners outnumbered small family, large family and all other homeowners combined by nearly 2 to 1. Very low income all other owners were nearly evenly divided between the 0-30% and the 31%-50% income groups. However, a significantly higher number of extremely low income owners (68%) reported problems with their homes than very low income homeowners (44%). Sixty-one percent (61%) of those with incomes of 0-30% of median were cost-burdened; the rate among very low income was substantially lower at 38%.

Very low income homeowners need assistance in maintaining and improving the physical conditions of their homes. With severely limited incomes, most of these homeowners do not have sufficient finances to pay for anything beyond their most basic needs. Subsequently, home repairs and maintenance work fall by the wayside. Programs which provide the necessary assistance to these homeowners include housing rehabilitation and weatherization, as well as fuel and utility assistance programs help to off-set monthly housing costs.

Issue: Extremely low income non-elderly homeowners lived in substandard housing and were cost-burdened

Low Income

Households with incomes between 51% and 80% are considered low income; in East Chicago, households with income levels between \$18,462 and \$29,537 were categorized as low income households. In 1990 there were 2,190 low income households, representing 18% of all households. This income group was evenly divided among homeowners and renters. In contrast to very low income households, low income households were less likely to be cost-burdened with

only 9% of all renters paying more than 30% of their income on housing costs and no households reported paying more than 50% of their income, compared to 58% to 73% of very low income renters. Low income renters were also less likely to have housing problems.

Among homeowners, housing problems were again much less likely among low income households (18%) in contrast to very low income households (42% to 70%).

Racial and ethnic information on low income households was not provided by HUD and is not available from other sources.

Low Income Elderly

Low income elderly renter households numbered 153 in 1990, accounting for 14% of all low income renters and 15% of all elderly households in East Chicago. Only 13% of elderly low income renters paid more than 30% of their income on housing costs with no households reporting severe cost-burden.

Low income elderly homeowner households accounted for nearly one-half of all low income homeowners but experienced significantly fewer problems than other low income homeowners. Only 6% of elderly homeowners reported housing problems and only 4% were cost-burdened.

The housing needs of low income elderly households should be predominantly addressed to renters. With elderly renters carrying the heaviest cost burden, subsidized rental housing would lessen their monthly housing expenses. Elderly homeowners may also benefit from rehabilitation, weatherization and utility assistance programs, although the need among this group appears to be relatively modest.

Low Income Small Families

Low income small family renter households accounted for a majority (51%) of low income renters and 18% of all small family renter households in 1990. Housing problems among this group were comparatively less than most other groups. Only 8% reported housing problems compared to 41% to 70% of very low income small family renters. Only 7% were cost-burdened with no small family renters paying 50% or more of their income on housing expenses.

Separate data on low income small family homeowners were not available.

Subsidized housing would provide financial relief to those small family renters who are cost-burdened.

Low Income Large Families

Low income large family renter households comprised only 15% of this population and 20% of all large family renters. However, housing problems were the most severe among this group in comparison with other low income renters. Sixty-three percent (63%) experienced housing problems but only 10% were cost-burdened. (This would suggest a problem with the condition of the housing units occupied by these households.) No large family renters paid 50% or more of their income on housing costs.

Separate data on low income large family homeowners were not available.

Subsidized housing would provide financial relief to those large family renters who are cost-burdened. In addition, financial assistance to property owners interested in rehabilitating their units up to code standards and renting the units to low income tenants would assist this group.

Issue: With only a small segment of low income large family renter households experiencing cost-burden, the predominant housing problem is more than likely to be overcrowding among this household type

Other Low Income All Other Renter Households

There were 213 low income renters in 1990, representing 20% of all low income renter households. Single persons and unrelated individuals living together comprised the largest category of low income renters. This group experienced only modest need in comparison to other low income renter households: only 9% had problems with their units and only 9% were cost-burdened. There were no low income all other renter households paying more than 50% of their income toward housing costs.

Subsidized housing would provide financial relief to these renters who are cost-burdened. However, ineligibility for rental assistance (particularly public housing) makes this a difficult group to house. A wider range of housing selection, including SRO and shared housing options, could assist in meeting the needs of such households.

Low Income All Other Homeowner Households

Low income all other homeowners accounted for 54% of low income homeowners and only 15% of homeowner households in East Chicago in 1990. This category of the population included small family and large family homeowner households. This group of homeowners experienced housing problems of a greater degree than low income elderly homeowners. Twenty-seven percent (27%) reported problems with their housing units and 15% were cost-burdened.

This group of homeowners would benefit from a housing rehabilitation program to assist them in maintaining their units in an affordable manner. Household budget counseling and home maintenance training would also be beneficial.

Need For Supportive Housing

Supportive housing is defined as residential units that provide a planned services component with access to a range of services identified as necessary for the resident to achieve personal goals. Various populations with special needs require supportive housing. The general needs of these persons are described below.

Elderly and Frail Elderly

When a person has one or more limitations on activities of daily living (ADL), he or she may need assistance to perform routine activities of daily living and therefore, can be considered frail. Elderly persons may need housing assistance for two reasons - financial and supportive. Supportive housing is needed when an elderly person is both frail and very low income since the housing assistance offers services to compensate for the frailty in addition to the financial assistance.

An estimate of the number of frail elderly requiring supportive services can be obtained by applying the national prevalency statistics for the proportion of elderly that require assistance with daily living skills to the number of elderly in the City who are very low income.

There were 4,483 persons age 65 and older in the City in 1990. Many of these were members of the 1,653 very low income owner and renter households shown on CHAS Table 1C. Applying the national prevalency statistic of 14.4% of all elderly who require assistance with daily living skills to this very low income population reveals a potential 238 elderly very low income frail elderly persons who may require assisted housing in East Chicago.

Need For Public And Assisted Housing

In East Chicago there exists a substantial waiting list of persons who wish to rent a public housing unit. As of January 1995 there was a total of 191 applicants waiting for units. The applicant households are categorized below. ECHA's greatest need is for small family units and handicapped accessible units.

Issue: The waiting list for public housing units renter households who are in need of subsidized, affordable housing.

There is also a substantial waiting list for Section 8 rental housing in East Chicago with 540 applicants. The greatest need is for small family housing units.

Issue: There exists an even greater need for rental assistance than public housing in East Chicago.

Homeownership Needs

The need for expanded homeownership opportunities is very evident in East Chicago. With a current homeownership rate of less than 50% Citywide, there is, for many reasons, insufficient opportunity for homeownership among household types of various income levels. This situation may contribute to the low turnover among Section 8 certificate and voucher holders. Section 8 tenant households in East Chicago generally retain the housing subsidies for a long and indefinite periods of time. Rather than using the Section 8 Program as a means to an end (i.e., homeownership and self-sufficiency), nearly all households remain within the program for many years. Perhaps, many households remain on the subsidy program because of the lack of decent, affordable housing opportunities in the City.

Expanded homeownership opportunities for low and moderate income households will be explored and implemented through the Five-Year Strategy for the City's CP. With the receipt of HOME entitlement funds, the City is better positioned to offer increased homeownership services and programs to eligible low and moderate income residents. Additionally, the City is planning to foster the development of new housing and homeownership opportunities for middle income households. With its convenient proximity to the employment center of metropolitan Chicago, East Chicago is in a good position to offer affordable housing for persons and families who work in Chicago but choose not to live in the city for a variety of reasons. There is also a growing concern that many of the young professionals who are originally from East Chicago and are now returning to live, work and raise their own families in their hometown cannot find suitable, decent housing within a reasonable price range. These are the households the City is very interested in retaining as tax-paying, economically independent households.

Anticipated Changes In Housing Needs

An economic development report recently completed by Mayor Pastrick's Gaming Task Force indicated that the placement of a riverboat casino in the East Chicago lakefront area is anticipated to stimulate other economic activities across the City, such as recreational development, housing and commercial development. A total of 1,900 jobs are expected to be created with a majority of these being made available to qualified East Chicagoans. However, with a 1993 unemployment rate of 11.9% in East Chicago, it can be presumed

that many residents who are presently underemployed or unemployed will take jobs at the casino. It is also presumed that for the time being, many of the locally employed residents will remain in their current housing unit.

However, with increased wages and the opportunity for better employment in the future, the City does anticipate the need for additional market-rate rental housing, newly constructed housing for homeownership and additional small scale, multi-family housing units.

Summary of Identified Issues/Estimated Housing Needs for 1995-1999

The following issues, highlighted throughout this section of the document, will assist the City in determining the goals and objectives to be established for the development of the Five-Year Strategy and the One-Year Action Plan for 1995.

- Among elderly minority households with incomes below 50% of median, Hispanics were most likely to experience housing problems and were less likely to be homeowners.
- Among small family households with incomes below 50% of the median, Hispanic renter households were most likely to experience substandard housing.
- Among large family households with incomes below 50% of median, housing problems were extremely high for minority and non-minority households alike with overcrowding the most likely problem. Homeownership among these households was also exceptionally low.
- While very low income renter households consisting of single persons and non-related persons living together accounted for one-fifth of all very low income households and experienced significant housing problems and degrees of cost-burden, there is essentially no federal, state or local programs to assist these households.
- Extremely low income non-elderly homeowners lived in substandard housing and were cost burdened.
- With only a small segment of low income large family renter households experiencing cost burden, the predominant housing problem is more than likely to be overcrowding among this household type.
- The waiting list for public housing units include households who are in need of subsidized, affordable housing.
- There exists an even greater need for rental assistance than public housing in East Chicago.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

To assist the City in meeting its housing needs, the Housing Authority of the City of East City has included the following initiatives and policy changes in this annual plan:

1. Shortage of affordable housing for all eligible populations

Maximize the number of affordable units available to the PHA within its current resources by:

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies

2. Increase the number of affordable housing units by:

Apply for additional section 8 units should they become available

3. Assisting families at or below 30% and 50% of median by:

Adopt rent policies to support and encourage work

4. Assisting Elderly by:

Apply for special-purpose vouchers targeted to the elderly, should they become available

5. Assisting Families with Disabilities by:

- Carry out the modifications needed in public housing based on the section 504 Needs
- Assessment for Public Housing
- Affirmatively market to local non-profit agencies that assist families with disabilities

6. Assisting Races or ethnicities with disproportionate housing needs by:

Increasing awareness of PHA resources among families of races and ethnicities with disproportionate needs by affirmatively market to races/ethnicities shown to have disproportionate housing needs

7. Conducting activities to affirmatively further fair housing by:

- Counsel section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units
- Market the section 8 program to owners outside of areas of poverty /minority concentrations

Factors influencing the Housing Authority's selection of the strategies are:

- Funding constraints
- Staffing constraints
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board

The Housing Authority has revised its Policies Governing Eligibility, Selection, and Admissions to comply with the Quality Housing and Work Responsibility Act of 1998 and to specifically accomplish the following goals:

- Deconcentration of Poverty and Income-Mixing in Public Housing and Section 8
- Intensified screening and resident selection criteria to reduce crime and to promote self-sufficiency among the public and Section 8 residents
- Promotion of choice in rental payment to encourage higher income residents

Asset management activities during Year 1 of the Agency Plan are:

- Capital improvements in developments IN 1, 2, 5, 6, 7, and 9.
- The development of a Section 8 voucher homeownership program

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

Need: Specific Family Types: Families at or below 30% of median

Strategy 1: Target available assistance to families at or below 30 % of AMI

Select all that apply

- Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance
- Employ admissions preferences aimed at families with economic hardships
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: Families at or below 50% of median

Strategy 1: Target available assistance to families at or below 50% of AMI

Select all that apply

- Employ admissions preferences aimed at families who are working
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: The Elderly

Strategy 1: Target available assistance to the elderly:

Select all that apply

- Seek designation of public housing for the elderly
- Apply for special-purpose vouchers targeted to the elderly, should they become available
- Other: (list below)

Need: Specific Family Types: Families with Disabilities

Strategy 1: Target available assistance to Families with Disabilities:

Select all that apply

- Apply for special-purpose vouchers targeted to families with disabilities, should they become available
- Affirmatively market to local non-profit agencies that assist families with disabilities
- Other: (list below)

Need: Specific Family Types: Races or ethnicities with disproportionate housing needs

Strategy 1: Increase awareness of PHA resources among families of races and ethnicities with disproportionate needs:

Select if applicable

- Affirmatively market to races/ethnicities shown to have disproportionate housing needs
- Other: (list below)

Strategy 2: Conduct activities to affirmatively further fair housing

Select all that apply

- Counsel section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units
- Market the section 8 program to owners outside of areas of poverty /minority concentrations
- Other: (list below)

Other Housing Needs & Strategies: (list needs and strategies below)

(2) Reasons for Selecting Strategies

Of the factors listed below, select all that influenced the PHA’s selection of the strategies it will pursue:

- Funding constraints
- Staffing constraints
- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board
- Results of consultation with advocacy groups
- Other: (list below)

2. Statement of Financial Resources

[24 CFR Part 903.7 9 (b)]

List the financial resources that are anticipated to be available to the PHA for the support of Federal public housing and tenant-based Section 8 assistance programs administered by the PHA during the Plan year. Note: the table assumes that Federal public housing or tenant based Section 8 assistance grant funds are expended on eligible purposes; therefore, uses of these funds need not be stated. For other funds, indicate the use for those funds as one of the following categories: public housing operations, public housing capital improvements, public housing safety/security, public housing supportive services, Section 8 tenant-based assistance, Section 8 supportive services or other.

3. PHA Policies Governing Eligibility, Selection, and Admissions

[24 CFR Part 903.7 9 (c)]

A. Public Housing

Exemptions: PHAs that do not administer public housing are not required to complete subcomponent 3A.

(1) Eligibility

a. When does the PHA verify eligibility for admission to public housing? (select all that apply)

- When families are within a certain number of being offered a unit: (state number)
- When families are within a certain time of being offered a unit: (state time)
- Other: (describe)
Once a unit of appropriate size is available and determination of deconcentration as defined above is applied, the family is selected for occupancy and the following items will be verified according to the East Chicago Housing Authority's Verification Procedures to determine eligibility and qualification for admission

b. Which non-income (screening) factors does the PHA use to establish eligibility for admission to public housing (select all that apply)?

- Criminal or Drug-related activity
- Rental history
- Housekeeping
- Other (describe)
History of participation in Public Housing or Section 8 Programs
Past criminal and eviction history
List of dangerous sex offenders

c. Yes No: Does the PHA request criminal records from local law enforcement agencies for screening purposes?

d. Yes No: Does the PHA request criminal records from State law enforcement agencies for screening purposes?

e. Yes No: Does the PHA access FBI criminal records from the FBI for screening purposes? (either directly or through an NCIC-authorized source)

(2)Waiting List Organization

a. Which methods does the PHA plan to use to organize its public housing waiting list (select all that apply)

- Community-wide list
- Sub-jurisdictional lists
- Site-based waiting lists
- Other (describe)

b. Where may interested persons apply for admission to public housing?

- PHA main administrative office
- PHA development site management office
- Other (list below)

c. If the PHA plans to operate one or more site-based waiting lists in the coming year, answer each of the following questions; if not, skip to subsection **(3) Assignment NA**

1. How many site-based waiting lists will the PHA operate in the coming year?0

2. Yes No: Are any or all of the PHA's site-based waiting lists new for the upcoming year (that is, they are not part of a previously-HUD-approved site based waiting list plan)?
If yes, how many lists?
3. Yes No: May families be on more than one list simultaneously?
If yes, how many lists?
4. Where can interested persons obtain more information about and sign up to be on the site-based waiting lists (select all that apply)?
- PHA main administrative office
 - All PHA development management offices
 - Management offices at developments with site-based waiting lists
 - At the development to which they would like to apply
 - Other (list below)

(3) Assignment

- a. How many vacant unit choices are applicants ordinarily given before they fall to the bottom of or are removed from the waiting list? (select one)
- One
 - Two
 - Three or More
- b. Yes No: Is this policy consistent across all waiting list types?
- c. If answer to b is no, list variations for any other than the primary public housing waiting list/s for the PHA:

(4) Admissions Preferences

- a. Income targeting:
- Yes No: Does the PHA plan to exceed the federal targeting requirements by targeting more than 40% of all new admissions to public housing to families at or below 30% of median area income?
- b. Transfer policies:
- In what circumstances will transfers take precedence over new admissions? (list below)
- Emergencies
 - Overhoused
 - Underhoused
 - Medical justification
 - Administrative reasons determined by the PHA (e.g., to permit modernization work)
 - Resident choice: (state circumstances below)
 - Other: (list below)

c. Preferences

1. Yes No: Has the PHA established preferences for admission to public housing (other than date and time of application)? (If “no” is selected, skip to subsection **(5) Occupancy**)
2. Which of the following admission preferences does the PHA plan to employ in the coming year? (select all that apply from either former Federal preferences or other preferences)

Former Federal preferences:

- Involuntary Displacement (Disaster, Government Action, Action of Housing Owner, Inaccessibility, Property Disposition)
- Victims of domestic violence
- Substandard housing
- Homelessness
- High rent burden (rent is > 50 percent of income)

Other preferences: (select below)

- Working families and those unable to work because of age or disability
- Veterans and veterans’ families
- Residents who live and/or work in the jurisdiction
- Those enrolled currently in educational, training, or upward mobility programs
- Households that contribute to meeting income goals (broad range of incomes)
- Households that contribute to meeting income requirements (targeting)
- Those previously enrolled in educational, training, or upward mobility programs
- Victims of reprisals or hate crimes
- Other preference(s) (list below)

3. If the PHA will employ admissions preferences, please prioritize by placing a “1” in the space that represents your first priority, a “2” in the box representing your second priority, and so on. If you give equal weight to one or more of these choices (either through an absolute hierarchy or through a point system), place the same number next to each. That means you can use “1” more than once, “2” more than once, etc.

1 Date and Time

Former Federal preferences:

- 1 Involuntary Displacement (Disaster, Government Action, Action of Housing Owner, Inaccessibility, Property Disposition)
- Victims of domestic violence
- Substandard housing
- Homelessness
- High rent burden

Other preferences (select all that apply)

- Working families and those unable to work because of age or disability
- Veterans and veterans’ families
- Residents who live and/or work in the jurisdiction

- Those enrolled currently in educational, training, or upward mobility programs
- Households that contribute to meeting income goals (broad range of incomes)
- Households that contribute to meeting income requirements (targeting)
- Those previously enrolled in educational, training, or upward mobility programs
- Victims of reprisals or hate crimes
- Other preference(s) (list below)

In an effort to reduce the Housing Authority's dependency on the Federal government for rental subsidy, the Housing Authority has elected to establish the following local preferences:

Working Family. An applicant family or individual whose head of the household is working minimum of twenty-five (25) hours per week will be given a priority over an applicant who is not employed. The working family must have been employed for the past twelve (12) months and agree to remain employed during his/her tenancy. The Housing Authority will give appropriate consideration to adjusting the minimum work hours if the family is also attending an education or job-training class. The applicants given a preference under this category are required to register with the Housing Authority's Family Self-Sufficiency Program once housed by the Authority. This preference will be limited to a maximum of fifty percent (50%) of the applicants housed within a given Housing Authority fiscal year 5 points will be given for this preference.

In-Training Family. An applicant family or individual whose head of the household is already regularly attending a bona-fide job training program, a college for a minimum of nine (9) credit hours or an adult education GED class will be given a priority. These applicants must also register with and fully participate in the Housing Authority's Family Self-Sufficiency Program until they complete their training/education programs and become employed in a job. 5 points will be given for this preference.

Involuntarily Displaced Family. An applicant family involuntarily displaced as a result of a natural disaster, government action, HUD disposition, The Housing Authority modernization/disposition, witness protection program, domestic violence/hate crimes or certain actions by the landlord will be given priority. The involuntary action must be beyond the applicant family's ability to control or prevent. If an applicant family voluntarily vacates his/her unit for personal reasons or is evicted for any lease violations, he/she will not qualify for this preference 5 points will be given for this preference.

Elderly, Handicapped or Disabled Family. An applicant family whose head of the household is defined as elderly, disabled or handicapped by HUD definitions and receives Social Security or SSI will be given a preference. 5 points will be given for this preference. A family or individual who has applied for or is living in a public housing unit, but whose special needs can not be economically met in one of the public housing sites will receive a preference under the Section 8 program.

Elderly, disabled, or displaced over other singles. The Housing Authority shall continue the statutory admissions preference of the elderly, disabled, or displaced over other singles set forth in 24 CFR 912.3 and 950.301(d) of the program regulations. The Housing Authority gives preference to a family (a) whose sole member is a displaced person or (b) whose head or spouse or sole member is an elderly person or a disabled person over a single person that is not elderly, disabled, or displaced.

Applicants who have been verified as eligible to receive housing assistance will be placed on the Housing Authority's community-wide Waiting List in sequence based upon their total preference points, time and date of their applications and suitable type or size of unit needed. The Housing Authority's Local Preference system has been designed to attain HUD's goal of housing families with a broad range of incomes and avoiding concentrations of the most economically deprived families.

4. Relationship of preferences to income targeting requirements:

- The PHA applies preferences within income tiers
- Not applicable: the pool of applicant families ensures that the PHA will meet income targeting requirements

(5) Occupancy

a. What reference materials can applicants and residents use to obtain information about the rules of occupancy of public housing (select all that apply)

- The PHA-resident lease
- The PHA's Admissions and (Continued) Occupancy policy
- PHA briefing seminars or written materials
- Other source (list)

b. How often must residents notify the PHA of changes in family composition? (select all that apply)

- At an annual reexamination and lease renewal
- Any time family composition changes
- At family request for revision
- Other (list)

(6) Deconcentration and Income Mixing

- a. Yes No: Did the PHA's analysis of its family (general occupancy) developments to determine concentrations of poverty indicate the need for measures to promote deconcentration of poverty or income mixing?

b. Yes No: Did the PHA adopt any changes to its **admissions policies** based on the results of the required analysis of the need to promote deconcentration of poverty or to assure income mixing?

c. If the answer to b was yes, what changes were adopted? (select all that apply)

Adoption of site based waiting lists
If selected, list targeted developments below:

Employing waiting list “skipping” to achieve deconcentration of poverty or income mixing goals at targeted developments
If selected, list targeted developments below:

Employing new admission preferences at targeted developments
If selected, list targeted developments below:

Other (list policies and developments targeted below)

d. Yes No: Did the PHA adopt any changes to **other** policies based on the results of the required analysis of the need for deconcentration of poverty and income mixing?

e. If the answer to d was yes, how would you describe these changes? (select all that apply)

Additional affirmative marketing

Actions to improve the marketability of certain developments

Adoption or adjustment of ceiling rents for certain developments

Adoption of rent incentives to encourage deconcentration of poverty and income-mixing

Other (list below)

f. Based on the results of the required analysis, in which developments will the PHA make special efforts to attract or retain higher-income families? (select all that apply)

Not applicable: results of analysis did not indicate a need for such efforts

List (any applicable) developments below:
Relocation incentives

g. Based on the results of the required analysis, in which developments will the PHA make special efforts to assure access for lower-income families? (select all that apply)

Not applicable: results of analysis did not indicate a need for such efforts

List (any applicable) developments below:
Scattered Sites - IN 29-2
Scattered Sites - IN 29-7

B. Section 8

Exemptions: PHAs that do not administer section 8 are not required to complete sub-component 3B.

Unless otherwise specified, all questions in this section apply only to the tenant-based section 8 assistance program (vouchers, and until completely merged into the voucher program, certificates).

(1) Eligibility

- a. What is the extent of screening conducted by the PHA? (select all that apply)
- Criminal or drug-related activity only to the extent required by law or regulation
 - Criminal and drug-related activity, more extensively than required by law or regulation
 - More general screening than criminal and drug-related activity (list factors below)
 - Other (list below)
- b. Yes No: Does the PHA request criminal records from local law enforcement agencies for screening purposes?
- c. Yes No: Does the PHA request criminal records from State law enforcement agencies for screening purposes?
- d. Yes No: Does the PHA access FBI criminal records from the FBI for screening purposes? (either directly or through an NCIC-authorized source)
- e. Indicate what kinds of information you share with prospective landlords? (select all that apply)
- Criminal or drug-related activity
 - Other (describe below)

(2) Waiting List Organization

- a. With which of the following program waiting lists is the section 8 tenant-based assistance waiting list merged? (select all that apply)
- None
 - Federal public housing
 - Federal moderate rehabilitation
 - Federal project-based certificate program
 - Other federal or local program (list below)
- b. Where may interested persons apply for admission to section 8 tenant-based assistance? (select all that apply)
- PHA main administrative office
 - Other (list below)

(3) Search Time

- a. Yes No: Does the PHA give extensions on standard 60-day period to search for a unit?

If yes, state circumstances below:

The applicants will be advised that the voucher will be valid for sixty (60) calendar days. The voucher may be extended up to a maximum of an additional sixty (60) calendar days provided that at least one of the following conditions are met:

- The family can demonstrate that they have had difficulty in locating a unit due to the lack of available units.
- The family has had an event to occur that was beyond their control that prevented or hindered their search for a unit.
- After submission of a request for lease approval, a prospective landlord withdraws their intention to rent to the tenant through no fault of the tenant.

(4) Admissions Preferences

a. Income targeting

Yes No: Does the PHA plan to exceed the federal targeting requirements by targeting more than 75% of all new admissions to the section 8 program to families at or below 30% of median area income?

b. Preferences

1. Yes No: Has the PHA established preferences for admission to section 8 tenant-based assistance? (other than date and time of application) (if no, skip to subcomponent **(5) Special purpose section 8 assistance programs**)

2. Which of the following admission preferences does the PHA plan to employ in the coming year? (select all that apply from either former Federal preferences or other preferences)

Former Federal preferences

- Involuntary Displacement (Disaster, Government Action, Action of Housing Owner, Inaccessibility, Property Disposition)
- Victims of domestic violence
- Substandard housing
- Homelessness
- High rent burden (rent is > 50 percent of income)

Other preferences (select all that apply)

- Working families and those unable to work because of age or disability
- Veterans and veterans' families
- Residents who live and/or work in your jurisdiction
- Those enrolled currently in educational, training, or upward mobility programs
- Households that contribute to meeting income goals (broad range of incomes)
- Households that contribute to meeting income requirements (targeting)
- Those previously enrolled in educational, training, or upward mobility programs
- Victims of reprisals or hate crimes
- Other preference(s) (list below)

Elderly families and displaced persons having priority over single persons.

Disabled family currently housed in a unit that does not provide for reasonable accommodations.

3. If the PHA will employ admissions preferences, please prioritize by placing a “1” in the space that represents your first priority, a “2” in the box representing your second priority, and so on. If you give equal weight to one or more of these choices (either through an absolute hierarchy or through a point system), place the same number next to each. That means you can use “1” more than once, “2” more than once, etc.

- Those enrolled currently in educational, training, or upward mobility programs
- Households that contribute to meeting income goals (broad range of incomes)
- Households that contribute to meeting income requirements (targeting)
- Those previously enrolled in educational, training, or upward mobility programs
- Victims of reprisals or hate crimes
- Other preference(s) (list below)

- (5) Elderly families and displaced persons having priority over single persons.
- (4) Disabled family currently housed in a unit that does not provide for reasonable accommodations.

4. Among applicants on the waiting list with equal preference status, how are applicants selected? (select one)

- Date and time of application
- Drawing (lottery) or other random choice technique

5. If the PHA plans to employ preferences for “residents who live and/or work in the jurisdiction” (select one)

- This preference has previously been reviewed and approved by HUD
- The PHA requests approval for this preference through this PHA Plan

6. Relationship of preferences to income targeting requirements: (select one)

- The PHA applies preferences within income tiers
- Not applicable: the pool of applicant families ensures that the PHA will meet income targeting requirements

(5) Special Purpose Section 8 Assistance Programs

a. In which documents or other reference materials are the policies governing eligibility, selection, and admissions to any special-purpose section 8 program administered by the PHA contained? (select all that apply)

- The Section 8 Administrative Plan
- Briefing sessions and written materials
- Other (list below)

b. How does the PHA announce the availability of any special-purpose section 8 programs to the public?

- Through published notices
- Other (list below)

4. PHA Rent Determination Policies

[24 CFR Part 903.7 9 (d)]

A. Public Housing

Exemptions: PHAs that do not administer public housing are not required to complete sub-component 4A.

(1) Income Based Rent Policies

Describe the PHA's income based rent setting policy/ies for public housing using, including discretionary (that is, not required by statute or regulation) income disregards and exclusions, in the appropriate spaces below.

a. Use of discretionary policies: (select one)

- The PHA will not employ any discretionary rent-setting policies for income based rent in public housing. Income-based rents are set at the higher of 30% of adjusted monthly income, 10% of unadjusted monthly income, the welfare rent, or minimum rent (less HUD mandatory deductions and exclusions). (If selected, skip to sub-component (2))

---or---

- The PHA employs discretionary policies for determining income based rent (If selected, continue to question b.)

b. Minimum Rent

1. What amount best reflects the PHA's minimum rent? (select one)

- \$0
 \$1-\$25
 \$26-\$50

2. Yes No: Has the PHA adopted any discretionary minimum rent hardship exemption policies?

3. If yes to question 2, list these policies below:

Admissions and Continued Occupancy Policy and Procedure: The Housing Authority shall grant an exemption from payment of this minimum rent if the family is unable to pay that rent as a result of financial hardship, as described in the responsible entity's written policies.

Financial hardship. The financial hardships shall include the following: suspend the minimum rent requirement immediately, until the Housing Authority determines whether there is a qualifying financial hardship and whether the hardship is long-term.

Determination of Temporary Financial Hardship. If the Housing Authority determines that there is a qualifying hardship, but that it is temporary, the Housing Authority reinstates the minimum rent from the time of suspension. The Housing Authority will not evict the family for nonpayment of the amount of minimum rent in excess of tenant rent otherwise payable during the 90-day period beginning on the date the family requested an exemption. The Housing Authority will offer the family a reasonable repayment agreement for the amount of back rent owed.

If the Housing Authority determines there is no qualifying hardship exemption, the Housing Authority shall reinstate the minimum rent including the back payment for minimum rent from the time of suspension on terms and conditions established by the Housing Authority.

The Housing Authority recognizes that this requirement may impose severe hardships for some assisted families that have adjusted monthly incomes so low that their rental obligation is below the "minimum rent" charged. These families may be unable to pay the "minimum rent," which in turn may expose them to eviction for nonpayment.

Therefore the Housing Authority shall take action to ensure that families with severe hardships are not evicted specifically as a result of their inability to pay the new minimum rents.

c. Rents set at less than 30% than adjusted income

1. Yes No: Does the PHA plan to charge rents at a fixed amount or percentage less than 30% of adjusted income?

2. If yes to above, list the amounts or percentages charged and the circumstances under which these will be used below:

d. Which of the discretionary (optional) deductions and/or exclusions policies does the PHA plan to employ (select all that apply)

For the earned income of a previously unemployed household member

For increases in earned income

Fixed amount (other than general rent-setting policy)

If yes, state amount/s and circumstances below:

Fixed percentage (other than general rent-setting policy)

If yes, state percentage/s and circumstances below:

For household heads

For other family members

For transportation expenses

For the non-reimbursed medical expenses of non-disabled or non-elderly families

Other (describe below)

The following permissive deductions, to the extent these amounts have not already been deducted from annual income or reimbursed to the family from other sources, are:

- Excessive travel expenses, in an amount not to exceed \$25 per family per week for travel related to employment, education, or training.
- An amount of a family's earned income, based on any of the following:
 - (i) All the earned income of the family;
 - (ii) The amount earned by particular members of the family;
 - (iii) The amount earned by families having certain characteristics; or
 - (iv) The amount earned by families or members during certain periods or from certain sources.
- Other deductions include but are not limited to payroll deductions, such as social security taxes, income taxes and medical insurance premiums.

e. Ceiling rents

1. Do you have ceiling rents? (rents set at a level lower than 30% of adjusted income) (select one)

Yes for all developments

Yes but only for some developments

No

2. For which kinds of developments are ceiling rents in place? (select all that apply)

For all developments

- For all general occupancy developments (not elderly or disabled or elderly only)
- For specified general occupancy developments
- For certain parts of developments; e.g., the high-rise portion
- For certain size units; e.g., larger bedroom sizes
- Other (list below)

3. Select the space or spaces that best describe how you arrive at ceiling rents (select all that apply)

- Market comparability study
- Fair market rents (FMR)
- 95th percentile rents
- 75 percent of operating costs
- 100 percent of operating costs for general occupancy (family) developments
- Operating costs plus debt service
- The "rental value" of the unit
- Other (list below)

f. Rent re-determinations:

1. Between income reexaminations, how often must tenants report changes in income or family composition to the PHA such that the changes result in an adjustment to rent? (select all that apply)

- Never
- At family option
- Any time the family experiences an income increase
- Any time a family experiences an income increase above a threshold amount or percentage: (if selected, specify threshold) _____
- Other (list below)

g. Yes No: Does the PHA plan to implement individual savings accounts for residents (ISAs) as an alternative to the required 12 month disallowance of earned income and phasing in of rent increases in the next year?

(2) Flat Rents

1. In setting the market-based flat rents, what sources of information did the PHA use to establish comparability? (select all that apply.)

- The section 8 rent reasonableness study of comparable housing
- Survey of rents listed in local newspaper
- Survey of similar unassisted units in the neighborhood
- Other (list/describe below)

B. Section 8 Tenant-Based Assistance

Exemptions: PHAs that do not administer Section 8 tenant-based assistance are not required to complete sub-component 4B. **Unless otherwise specified, all questions in this section apply only to the tenant-based section 8 assistance program (vouchers, and until completely merged into the voucher program, certificates).**

(1) Payment Standards

Describe the voucher payment standards and policies.

a. What is the PHA's payment standard? (select the category that best describes your standard)

- At or above 90% but below 100% of FMR
- 100% of FMR
- Above 100% but at or below 110% of FMR
- Above 110% of FMR (if HUD approved; describe circumstances below)

b. If the payment standard is lower than FMR, why has the PHA selected this standard? (select all that apply)

- FMRs are adequate to ensure success among assisted families in the PHA's segment of the FMR area
- The PHA has chosen to serve additional families by lowering the payment standard
- Reflects market or submarket
- Other (list below)

c. If the payment standard is higher than FMR, why has the PHA chosen this level? (select all that apply)

- FMRs are not adequate to ensure success among assisted families in the PHA's segment of the FMR area
- Reflects market or submarket
- To increase housing options for families
- Other (list below)

d. How often are payment standards reevaluated for adequacy? (select one)

- Annually
- Other (list below)

e. What factors will the PHA consider in its assessment of the adequacy of its payment standard? (select all that apply)

- Success rates of assisted families
- Rent burdens of assisted families
- Other (list below)

(2) Minimum Rent

a. What amount best reflects the PHA's minimum rent? (select one)

- \$0
 \$1-\$25
 \$26-\$50

b. Yes No: Has the PHA adopted any discretionary minimum rent hardship exemption policies? (if yes, list below)

Admissions and Continued Occupancy Policy and Procedure: The Housing Authority shall grant an exemption from payment of this minimum rent if the family is unable to pay that rent as a result of financial hardship, as described in the responsible entity's written policies.

Financial hardship. The financial hardships shall include the following: suspend the minimum rent requirement immediately, until the Housing Authority determines whether there is a qualifying financial hardship and whether the hardship is long-term.

Determination of Temporary Financial Hardship. If the Housing Authority determines that there is a qualifying hardship, but that it is temporary, the Housing Authority reinstates the minimum rent from the time of suspension. The Housing Authority will not evict the family for nonpayment of the amount of minimum rent in excess of tenant rent otherwise payable during the 90-day period beginning on the date the family requested an exemption. The Housing Authority will offer the family a reasonable repayment agreement for the amount of back rent owed.

If the Housing Authority determines there is no qualifying hardship exemption, the Housing Authority shall reinstate the minimum rent including the back payment for minimum rent from the time of suspension on terms and conditions established by the Housing Authority.

The Housing Authority recognizes that this requirement may impose severe hardships for some assisted families that have adjusted monthly incomes so low that their rental obligation is below the "minimum rent" charged. These families may be unable to pay the "minimum rent," which in turn may expose them to eviction for nonpayment.

Therefore the Housing Authority shall take action to ensure that families with severe hardships are not evicted specifically as a result of their inability to pay the new minimum rents.

5. Operations and Management

[24 CFR Part 903.7 9 (e)]

Exemptions from Component 5: High performing and small PHAs are not required to complete this section. Section 8 only PHAs must complete parts A, B, and C(2)

A. PHA Management Structure

Describe the PHA's management structure and organization.

(select one)

- An organization chart showing the PHA's management structure and organization is attached.
- A brief description of the management structure and organization of the PHA follows:

B. HUD Programs Under PHA Management

List Federal programs administered by the PHA, number of families served at the beginning of the upcoming fiscal year, and expected turnover in each. (Use "NA" to indicate that the PHA does not operate any of the programs listed below.)
