## ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Independence Housing Authority (IHA) will continue to operate its low rent and Section 8 voucher programs as efficiently as possible, while maximizing the number of families assisted through those programs. Achieving and maintaining a low rent occupancy rate of 95% or more, and a Section 8 leaseup rate of 95% will accomplish this. In addition, the agency will aggressively seek out ways to increase its capacity to assist lower income families' to reside in decent, safe, affordable housing.

The IHA will adopt methods of operation that are more "customer friendly", including applying for HUD approval of designation of specific low-rent buildings as elderly only and establishment of site-based waiting lists. Institution of site-based waiting lists will allow applicants to chose which site's waiting list they wish to be placed on and will prevent punishing those who are currently offered dwelling units on a first available basis at sites where they do not want to live. Under a sitebased system, the applicant can choose to be listed on more than one waiting list.

The IHA will undertake an exhaustive evaluation of age and condition of its lowrent housing stock, and whether maintaining this stock "as is" appears to be appropriate for the future. Once this evaluation is completed, the information will be used to develop an asset management plan that could include any combination of several components, including such drastic measures as sale of all or part of the stock and replacement with tenant-based assistance, or demolition and replacement with more modern and viable alternative development, such as single family homes.

 $\boxtimes$ 

4. The Consolidated Plan of the jurisdiction supports the PHA Plan with the following actions and commitments: (describe below)

The City of Independence aggressively sought input from Housing Authority staff and residents during development of the City's 2000-2005 Consolidated Plan, including holding two of the six public forums at Housing Authority sites. Public opinion offered during these forums classified transportation, youth programs and housing as the highest need priorities in the City.

The City's housing priorities include increasing the availability of decent, safe and affordable housing for lower-income residents, increasing the availability of transitional housing for homeless and special needs families, increasing the availability of assisted housing for smaller lower-income families, increasing the availability of affordable housing for lower-income home ownership, increasing the availability of affordable housing for the elderly and frail elderly, facilitating home repairs for low/moderate income homeowners, and addressing property maintenance code issues.

Virtually all of the Housing Authority's programs play a role in addressing one or more of the community's housing needs. Over the past year the Housing Authority has increased it's capacity to assist lower-income families through the Section 8 Voucher program by 80 families, from 686 vouchers to 766 vouchers. In terms of the actual number of families assisted, the Housing Authority is assisting over 100 more families now than one year ago, and should be able to add another 40 families over the next few months. During the past year the Housing Authority was able to add a resident services coordinator for its Hocker Heights family development.

## ATTACHMENT A. TO THE 2001 AGENCY PLAN

The following Deconcentration of Poverty and Income Mixing statement is an excerpt from the Admissions and Continued Occupancy Policy, which was revised March 21, 2000.

### **DECONCENTRATION OF POVERTY AND INCOMEMIXING**

The HAI's admission policy is designed to provide for deconcentration of poverty and income mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admissionand for income-mixing purposes. Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Such skipping will be uniformly applied until the target threshold is met.

The HAI will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the HAI in its deconcentration goals.

The Housing Authority of the City of Independence, Missouri conducted a survey to compare the income at each of it's developments and found there wasn't a need at this time for a Deconcentration Policy.

The Housing Authority of the City of Independence, Missouri (HAI) will provide a comprehensive program to combat drug use and drug related crime at its three developments (HockerHeights, Pleasant Heights, and Southview Manor). The HAI will collaborate with the Independence Police Department's Community Policing Program, in cooperation with the Tenant Association Crime Prevention Program, to reduce and eliminate the sale of illegal narcotics at all three developments. By collaborating with Blue River Community College, Campfire Boys and Girls, and Parenting Awareness, the HAI will bring together a holistic approach to the prevention of drug use and sales by providing critical information to help raise children drug free and to provide employment skills to adults by using the existing computer lab. The HAI believes this approach of combating illegal drug sales through community policing, along with providing the necessary tools tobreak the cycle of drug use and sales, is imperative for success in the war against drugs.
